The Routledge Handbook of Women's Experiences of Criminal Justice Isla Masson, Natalie Booth, 2022-10-25 This Handbook brings together the voices of a range of contributors interested in the many varied experiences of women in criminal justice

systems and who are seeking to challenge the status quo. Although there is increasing literature and research on gender and certain aspects of the criminal justice system often Western focused there is a significant gap in the form of a Handbook that brings together these important gendered conversations. This essential book explores research and theory on how women are perceived handled and experience criminal justice within and across different jurisdictions with particular consideration of gendered and disparate treatment of women as law breakers. There is also consideration of women's experiences through an intersectional lens including race and class as well as feminist scholarship and activism. The Handbook contains 47 unique chapters with nine overarching themes. Lessons from history and theory. Routes into the criminal justice system.

Intersectionality. Sentencing and the courts and community punishments. Specific offences. Incarcerated women's experiences. Mothers and families. Rehabilitation and reintegration. Practitioner relationships and each theme includes contributions from different countries as well as the experiences of contributors from different stages in their own journey. International and interdisciplinary in scope this Handbook is essential reading for scholars and students of criminology, sociology, social policy, social work and law. It will also be of interest to practitioners such as social workers, probation officers, prison officers and policy makers.

Women's Empowerment and Microcredit Programmes in India Annabel Dulhunty, 2023-08-21. Women's Empowerment and Microcredit Programs in India examines the value of microcredit based self help groups (SHGs) for women in India and provides an alternative model for women's empowerment programming. The microcredit sector continues to boom globally with private investors, governments and multilateral financial institutions all investing substantial amounts in self help group programming. Nowhere is this more evident than in India where the industry has further been deregulated in recent years. Much of the rationale for increased investment in microcredit is based on the idea that it improves women's empowerment. But is this true? Researchers have fiercely debated the value of microcredit programs for women with some arguing that it is exploitative and others contending that it is empowering. This book provides new insights into women's empowerment and microcredit programming elaborating on the themes of power, dignity, mobility and solidarity. It takes a nuanced view of the complexities surrounding self help group programming and women's empowerment and argues that the model of microcredit self help group programming is key to whether it helps or harms women. By focusing on the experiences and voices of microcredit self help group members in West Bengal, India this book elaborates on the idea of microcredit models existing on a continuum from smart economics to more holistic feminist versions of programming. It will be of interest to scholars in development studies, anthropology, sociology, gender studies and public policy and Asian Studies.

The SADC Protocol on Gender and Development is the only sub regional instrument in the world that brings together global and continental commitments to gender equality in one instrument used to enhance accountability. The Southern African Gender Protocol Alliance is a network of country and regional NGOs that campaigned for the Protocol. It's updating implementation and tracking. Originally aligned to the Millennium Development Goals that expired in 2015 SADC Gender Ministers updated the Protocol and aligned it to the Sustainable development Goals SDGs Beijing Plus Twenty and the Africa Agenda 2063 in 2016. In July 2017 the Ministers adopted a Monitoring Evaluation and Results Framework MERF that is now the basis of reporting. 2018 marks the tenth anniversary of the SADC Gender Protocol and the Barometer. Moving with the times the Alliance has expanded the two yardsticks in the Barometer the SADC Gender and Development Index SGDI and the Citizen Score Card CSC. The Barometer incorporates many MERF and SDG indicators as well as its own unique measures of voice choice and control. The Barometer also introduces the Gender Responsive Assessment of Constitutions and Laws conducted by Alliance experts and networks around the region. A wealth of data insights and analysis awaits all readers of the Barometer that will also be made available online and in multi media formats. The SADC we want is one in which citizens
