Virtual Technology Innovations in Education Gökoğlu, Seyfullah, Erdoğdu, Fatih, 2024-11-27 Recent developments and events worldwide have accelerated the adoption of virtual teaching and learning strategies across educational sectors. This shift has necessitated the development of innovative means to deliver educational content virtually, ensuring continuity in education. Institutions have responded by leveraging digital platforms, interactive tools, and virtual classrooms to create engaging and accessible learning experiences. These efforts not only maintain academic standards but also expand the reach of education beyond traditional settings, fostering flexibility and inclusivity in how knowledge is shared. As a result, educators and learners are adapting to a new paradigm that prioritizes technological proficiency and innovative pedagogical approaches. Virtual Technology Innovations in Education explores the use of virtual technologies in educational settings. With a focus on the digital transformation of traditional educational practices, it investigates the impact virtual innovations can have on teaching and learning. Covering topics such as artificial intelligence, AI, higher education, and virtual reality, this book is an excellent resource for educators, administrators, policymakers, academicians, researchers, and more. **Immersive Learning in Teacher Education: Simulated Environments, Tools, and Practices** Goff, Wendy May, 2025-06-17 As the demand for educators continues to grow, teacher preparation programs must evolve to equip future teachers with the skills and confidence needed for today's dynamic classrooms. Using innovative technologies such as virtual simulations, augmented reality, and AI platforms has transformed teacher education. These immersive tools provide safe, controlled spaces where aspiring educators can practice, reflect, and refine their instructional strategies in real time. By bridging theory and practice, immersive learning empowers teacher candidates to develop critical competencies and adapt more effectively to the realities of diverse educational settings. Immersive Learning in Teacher Education: Simulated Environments, Tools, and Practices explores the use of immersive technology in higher education. The book uses examples from accredited governments and education departments from around the world and serves as a source of possibility and inspiration for academics and faculties across the higher education landscape, as well as for classroom teachers working in schools and other educational settings. Covering topics such as AI, gamification, and virtual reality, this book is an excellent resource for teachers, higher education faculty, and policymakers, academicians, researchers, and more. Disinformation and Counternarratives in International Security Gustavo Díaz Matey, Pablo Moral, 2025-11-13 This book examines the strategic role of weaponized narratives and foreign information manipulation and interference (FIMI) in international relations. It aims to understand how information is used as a tool for power projection and strategic competition, combining theoretical and empirical analyses. The work covers both traditional disinformation and lesser-studied phenomena like information suppression and the psychosocial vulnerabilities that enable manipulation. Through case studies of information campaigns in both wartime and peacetime, it highlights the security challenges posed by these narratives across varying geopolitical tensions. The book bridges realist and

constructivist approaches considering the roles of state and non state actors as well as domestic populations and international organizations With empirical studies of initiatives by NATO the UN and the EU the volume equips readers to address critical questions about the success influence and impact of weaponized narratives and the effectiveness of efforts to counter them This book will be of much interest to students of information warfare foreign influence operations foreign policy and international relations
