**Inside Racing** Gilbert L. Lyan, 1961 *Better Betting with a Decent Feller* Carl Chinn, 2004 Today branches of chains such as William Hill and Ladbrokes are familiar sights in high streets across Britain and betting takes place on all sorts of events from horse racing to general elections from football matches to the likelihood of snow falling on Christmas Day Yet until 1961 street bookmakers were illegal and old prejudices are slow to fade away A stigma is still attached to bookmaking and for many people bookmakers remain disreputable and shady lot This book sets out to examine why this is the case Social historian Carl Chinn was himself a bookmaker like his father and grandfather before him and therefore brings his own unique perspective to this lively and highly readable account of the profession's history from its origins among the sharpsters who hoodwinked punters at racecourses to the illegal street bookies who offered the working class a tantalising escape from poverty to the growth of leisure empires such as Coral and William Hill to legalisation to gambling on the internet and betting on virtual horse races

provider errs e.g. in favour of the underdog or the favourite The bettor's error is analysed with the help of a four point plan and then the bets are placed naturally on the events that have received odds that are too high from the bettor In addition Lorenz Laplace gives other decisive tips e.g. how to optimally integrate promotions Deposit bonuses free bets cashback or combination bet insurance etc The book is a must for every betting enthusiast who wants to make long term profits with betting
