convex production set so as to maximize profit the book considers extensions and generalizations of this framework particularly to non convex environments The study is presented from the Primal and Dual points of view The final chapter in the book provides a link to its Companion Volume The Chapter indicates how the theories of consumer and producer choice studied here help inform answers of the second question posed above Resources are available to instructors who adopt this book More details at [www.worldscientific.com/worldscibooks/10.1142/12789\\_sm](http://www.worldscientific.com/worldscibooks/10.1142/12789_sm)
