patients This compendium contains 10 quick reference guides Alzheimer s Disease and Other Dementias of Late Life
 Borderline Personality Disorder Bipolar Disorder Delirium Eating Disorders HIV AIDS Major Depressive Disorder Panic
 Disorder Schizophrenia Suicide Each guide is derived from the full text of a practice guideline developed by the American
 Psychiatric Association APA and published originally in The American Journal of Psychiatry The purpose of these QRGs is to
 facilitate clinical use of APA s practice guidelines by physicians Although the practice guidelines provide detailed
 recommendations for treatment and comprehensively describe the evidence to support those recommendations their length
 and text format do not allow for easy use in the psychiatrist s day to day work with patients hese guidelines help you
 Understand clinical features and symptoms Make a confident differential diagnosis Evaluate interventions commonly used to
 treat specific disorders Select the appropriate site of service Educate the patient and family Assess the efficacy and risks of
 available medications Develop an individualized treatment plan Central to proper use of these QRGs is recognition that they
 do not stand alone The psychiatrist using them should be familiar with the full text practice guideline on which each QRG is
 based For clarification of arecommendation or for a review of the evidence supporting a particular strategy the psychiatrist
 will find it helpful to return to the guideline With rare exception the QRG faithfully reflects the content of the guideline
 Exceptions are specifically noted in the QRG Each quick reference guide presents the major recommendations and their
 sequencing with enough detail to be both clinically helpful and practical to use
