neither colleges nor high schools can create physicians They can confer privileges and cause a person who is not a physician to appear as if he were one they can give him permission to kill but they cannot give him the power to cure they cannot make him a real physician if he has not already been ordained by God The true physician does not brag about his cleverness or praise his medicines or seek to monopolize the right of robbing the patient for he knows that the work must praise the master and not the master the work There is a knowledge which is derived from man and another knowledge which is derived from God through the light of nature He who has not been born to be a physician will never succeed A physician should be
