Schneid, 1998-09-17 With so much to do and so little time in today's workplace it's often difficult to bring new ideas and concepts to the attention of employees let alone make proposed measures regular practice. What's a safety manager to do in order to draw attention to workplace safety issues? Be creative! Creative Safety Solutions presents innovative ways to solve complex safety and health problems in the office or factory. The key to its distinctive approach: motivate employees to think safety! While offering effective solutions for common health and safety issues, Dr. Schneid also explains how safety specialists can foster creative thinking ideal for working out situations particular to one's own workplace. Case histories illustrate how the think safety methods have brought tremendous improvements to many workplaces throughout the U.S. In addition to fostering active involvement among employees, Creative Safety Solutions also shows how to spread the word among management team members, labor organizations and vendors. It also details ways to convince management that a safety program is worth the funding and effort. Workplace safety awareness saves money, time and lives. Creative Safety Solutions will encourage your employees and executives to pay attention and take part.
