Practical Decision Making in Health Care Ethics Raymond J. Devettere, 2009-12-04 For nearly fifteen years Practical Decision Making in Health Care Ethics has offered scholars and students a highly accessible and teachable alternative to the dominant principle based theories in the field. Devettere's approach is not based on an ethics of abstract obligations and duties but following Aristotle on how to live a fulfilled and happy life in short an ethics of personal well being grounded in prudence the virtue of ethical decision making. This third edition is revised and updated and includes discussions of several landmark cases including the tragic stories of Terri Schiavo and Jesse Gelsinger the first death caused by genetic research. Devettere addresses new topics such as partial birth abortion law embryonic stem cell research infant euthanasia in The Netherlands recent Vatican statements on feeding tubes organ donation after cardiac death new developments in artificial hearts clinical trials developed by pharmaceutical companies to market new drugs ghostwritten scientific articles published in major medical journals and controversial HIV AIDS research in Africa. This edition also includes a new chapter on the latest social and political issues in American health care. Devettere's engaging text relies on commonsense moral concepts and avoids academic jargon. It includes a glossary of legal medical and ethical terms an index of cases and thoroughly updated bibliographic essays at the end of each chapter that offer resources for further reading. It is a true classic brilliantly conceived and executed and is now even more valuable to undergraduates and graduate students medical students health care professionals hospital ethics committees and institutional review boards and general readers interested in philosophy medicine and the rapidly changing field of health care ethics.

**Encyclopedia of Ethics: P-W** Lawrence C. Becker, Charlotte B. Becker, 2001 A revised expanded and updated edition with contributions by 325 renowned authorities in the field of ethics. All of the original articles have been newly peer reviewed and revised bibliographies have been updated throughout and the overall design of the work has been enhanced for easier access to cross references and other reference features.

**Personal Immortality by Automatic All-Natural Processes** Everett Cheney, 2010-06-02 This all naturalistic book is offered in response to a growing worldwide need for a new comprehensive alternative to Supernaturalistic Theism. Modern learning and recent religion inspired human world savagery have turned off more people than ever before from the many traditional Supernaturalistic Theistic Religions. Worldwide more than a billion people already share all naturalistic world views and values but many lack an adequate chart to help navigate the rough and uncertain waters of personal living existence. This book is an effort to provide information to help the interested naturalistic reader formulate such a chart and in the process also explain how and why everyone automatically and unconditionally lives forever by forever ongoing all natural processes. The concept of all things by natural processes that is described and explained in this book could give some people a whole new understanding of Reality and change their lives for the better in important ways. And it might also inspire some people to more fully and enthusiastically participate in the celebration of life and when their end times near help them make
