Handling the Sick Tom Craig Olson, Eileen Walsh, 2004 Handling the Sick is the story of 838 women who entered St Luke's Hospital Training School for Nurses St Paul Minnesota from 1892-1937 Their story addresses a fundamental question about nursing that has yet to be answered is nursing a craft or a profession It also addresses the colliding visions of nursing factions that for more than a century have disagreed on the inherent traits and formal preparation a nurse has needed The women of St Luke's were engaged in the most practical of all occupations open to women a rare one in which their strength experience and skill were prized above all else They firmly believed that the key to success in nursing was apprenticeship training Apprenticeship not schooling was the cornerstone on which all else rested This study unites the opposing visions of those who led nursing toward professional status and those who saw it as a craft Physicality strength of will an abiding emphasis on practicality and a hierarchy based on a deep pride in craft skills have been essential elements of nursing Nursing can look to its complex history to develop an integrated model of nursing one drawing on both academic training and the immediate realities involved in handling the sick
