

# Nursing Case Studies

## Management of acute exacerbation of chronic heart failure

### Patient background

Mr. Johnson is a 65-year-old male with a history of chronic heart failure (CHF). He presents to the emergency department with complaints of worsening shortness of breath, fatigue, and lower extremity edema for the past two days. He reports non-compliance with his prescribed medications and dietary restrictions.

### Assessment findings

- **Vital signs:** BP 160/90 mmHg, HR 110 bpm, RR 24 bpm, SpO<sub>2</sub> 88% on room air
- **Lung auscultation:** Bilateral crackles heard in lung bases
- **Lower extremity assessment:** 2+ pitting edema bilaterally
- **Lab results:** Elevated BNP levels, hyponatremia, hypokalemia

### Nursing diagnoses

1. Impaired Gas Exchange related to fluid overload and decreased oxygenation.
2. Activity Intolerance related to decreased cardiac output and dyspnea.
3. Noncompliance with Medications related to lack of understanding and socioeconomic factors.

### Interventions

1. Administer oxygen therapy via nasal cannula at 2 L/min to improve oxygenation.
2. Monitor fluid intake and output, restrict sodium intake, and administer prescribed diuretics to reduce fluid overload.
3. Educate the patient and family about the importance of medication adherence, dietary restrictions, and daily weight monitoring.
4. Collaborate with the healthcare team to adjust medication regimen, including ACE inhibitors, beta blockers, and diuretics.

### Rationale for interventions

1. Oxygen therapy improves oxygenation and relieves dyspnea.
2. Diuretics help reduce fluid overload and alleviate symptoms of congestion.
3. Patient education promotes self-management and empowers the patient to participate in their care.

### Evaluation

- Mr. Johnson's oxygen saturation improves to 94% on supplemental oxygen.
- Crackles in lung bases diminish after diuretic therapy, and lower extremity edema decreases.
- Patient verbalizes understanding of medication regimen and plans to adhere to prescribed treatment.
- Follow-up appointment scheduled for cardiac rehabilitation and medication review.

Designed as an exam preparation and revision tool **101 Primary Care Case Studies** Sampath Wijesinghe,2020-12-15 Real life primary care case studies from more than 50 primary care providers including physician assistants nurse

practitioners and physicians 101 Primary Care Case Studies offers real life patient scenarios and critical thinking exercises to help you work through a patient's chief complaint. Through narrative case studies you will determine how best to diagnose, treat and manage your patient based on the history of present illness, review of systems, relevant history and physical examination findings. This workbook will ask probing questions to help you determine differential and most likely diagnoses, diagnostic tests to order and appropriate patient management strategies using relevant and timely references to support your decisions. The organization of each case study simulates the patient care journey from chief complaint to outcome. Serving as a virtual clinical preceptor this workbook can be used independently or in a classroom setting. It is accompanied by a robust online student supplement that provides answers to all questions, real outcomes of the cases and valuable personal insights from the authors on how the patient was successfully managed. Not only will this workbook help you work through patient cases clinically it will also share important but often overlooked bedside manner skills needed to successfully communicate with and care for your patients. Covering conditions across all organ systems and across the lifespan this workbook is organized by chief complaint providing an authentic perspective on what to expect in the patient care environment. It even includes information on pathophysiology and how to use ICD 10 and CPT E/M codes in your documentation. The book uniquely weaves together both the science and art of medicine by including personal insights into quality and compassionate care. Key Features: Provides real life patient cases from an interprofessional author team of physician assistants, nurse practitioners and physicians. Uses a templated case study design and critical thinking exercises to help you methodically work through various patient scenarios. Teaches clinical and bedside manner skills imperative for delivering quality patient care. Covers patients across the lifespan including pediatric, adolescent, adult and geriatric populations. Offers additional insight on patient education, medical and legal concerns and interprofessional collaboration. Includes a robust online student supplement with valuable insights from the authors on how they successfully managed the cases. Provides instructors with a table of contents that is filterable by chief complaint, diagnosis, patient population and organ system. Details changed to protect patient information.

Redmond, Frances Ouellette, 1983 *Prioritization, Delegation, & Management of Care for the NCLEX-RN® Exam* Ray A Hargrove-Huttel, Kathryn Cadenhead Colgrove, 2014-05-13 Master the critical thinking and test taking skills you need to excel on the prioritization delegation and management questions on the NCLEX RN Three sections provide you with three great ways to study In the first section you'll find individual and multiple client care focused scenario questions organized by disease process with rationales and test taking hints The second section features seven clinical case scenarios with open ended NCLEX style questions The third section is a comprehensive 100 question exam *Study Guide to Accompany Pharmacology for Nursing Care* Marshal Shlafer, Richard A. Lehne, 2004 This study guide features high caliber learning activities that apply the renowned Dr Marshal Shlafer's rich experience in teaching pharmacology to a wide range of student learning styles **Maternity Nursing Case Studies** Mildred A. Disbrow, 1976 **Case Studies in Community**

**Health Nursing Practice** Juliann G. Sebastian, Marcia Stanhope, 1999 Community health nurses are confronted with unique problems throughout their career. Students learning from CASE STUDIES IN COMMUNITY HEALTH NURSING PRACTICE are prepared for these challenges. This unique text and workbook teaches students to think critically and apply knowledge to solve problems. As students explore each case in detail, they use problem based learning techniques to apply their knowledge, ask the right questions, gather supporting data, sort through options and determine optimal solutions with rationales and possible consequences. The problem based learning approach in this text will help students develop creative and critical thinking skills and demonstrate problem solving abilities. Includes 18 case studies representing various community health issues. Each case teaches students to apply what they already know and gather new information to determine solutions to real world and complex problems. Provides questions to guide case analysis that take the student through the steps of the problem solving process. Employs a workbook type layout in a lay flat binding that allows ample room to take notes and write solutions to the cases. Supports individual, small group or classroom use with its format and case study approach.

**Case Studies in**

**Therapeutic Nutrition** Barbara Luke, 1977 Abstract A text is designed for nurses who need to update their knowledge of the principles and applications of therapeutic nutrition. Two disciplines, nursing and nutrition are integrated so that the importance of diet in pathophysiological states can be demonstrated. Diets with protein, fat and carbohydrate modifications are described. Each section presents case studies in which the main nutrient e.g. protein is manipulated to comply with the diet prescription e.g. renal and hepatic disease. The diet prescription, drug therapies, laboratory values and clinical symptoms of various diseases are compared. Questions are provided at the end of each section to test for comprehension of materials and answers are given. Additional references for further study are supplied. kbc

*Case Studies for Nursing Management*

Courses Patricia Macmillan, 1975    **Oncology Nursing Case Studies** Marylin J. Dodd, 1978    **Case Studies in Primary Care for Nurses and Nurse Practitioners** JoAnne T. Kowalski, Mary Anne Totten, 1990    **Critical Thinking in Nursing**

Carol J. Green, 2000 Helping today's nursing professional acquire essential critical thinking skills for solving both common and more complex health problems, this innovative and insightful workbook contains 92 real life cases which address all aspects of nursing care i.e. assessment, analyzing data, planning care, evaluating benefits and possible consequences of care and demonstrate the cognitive and affective components that influence critical thinking. KEY TOPICS Contains an introduction to critical thinking, an historical overview of critical thinking and an in depth discussion on the affective and cognitive components of critical thinking. Uses critical thinking language throughout. Bases all material on critical thinking theory and fosters both attitude and cognitive critical thinking within each case. Organizes case studies by major nursing specialties: adult health, community and home care, maternal, newborn, pediatrics and mental health nursing and presents many activities and questions within each case to stimulate critical thinking skills. Includes practice sessions, detailed chapter summaries and a book Internet link that provides regularly updated material. MARKET For nurses specializing in adult health.

community and home care maternal newborn pediatrics and mental health
