Oceanography R. Gordon Pirie,1973      Oceanography Robert Gordon Pirie,1977 At a time when the world's food supplies are increasingly unable to meet the needs of a burgeoning population there is significant diversity of opinion concerning the benefits and perceived dangers of the application of biotechnology to food production Plants Biotechnology and Agriculture provides the reader with a guide to plants as both organisms and resources The first half of the book gives an overview of plant biology suitable for students of plant biology and agriculture as well as those without a biology background This is followed by an outline of the human exploitation of plants from domestication to scientific manipulation Further chapters describe the technologies that are now being used to improve crops society's responses to these technologies and how they are being modified as a result The book concludes with a discussion of future challenges for biotechnology in the face of rapid population growth depletion of non renewable resources and climate change      **Oceanography** ,1977

*Remote Sensing Applications in Marine Science and Technology* A.P. Cracknell,2012-12-06 This summer school was a sequel to the summer school on Remote Sensing in Meteorology Oceanography and Hydrology which was held in Dundee in 1980 and the proceedings of which were published by Ellis Horwood Ltd Chichester England At the present summer school we concentrated on only part of the subject area that was covered in 1980 Although there was some repetition of material that was presented in 1980 because by and large we had a new set of participants most subjects were treated in considerably greater detail than had been possible previously The major topics covered in the present summer school were i the general principles of remote sensing with particular reference to marine applications ii applications to physical oceanography iii marine resources applications and iv coastal monitoring and protection The material contained in this volume represents the written texts of most of the lectures presented at the summer school One important set of lecture notes was not available this was for the lectures on active microwave techniques principally synthetic aperture radar by W Alpers from Hamburg For this material we would refer the reader to Imaging Ocean Surface Waves by Synthetic Aperture Radar A Review by W Alpers which is to appear as chapter 6 in Satellite Microwave Remote Sensing edited by T D Allan Ellis Horwood Chichester which is to be published in 1983      **Book catalog of the Library and Information Services Division** Environmental Science
