dealing with these central topics but also Martin Luther Huldrych Zwingli and John Calvin's views and different approaches. An indispensable primer for any beginning scholar. *Sin, Grace, and Free Will* presents the writings of Christian thinkers in their own contexts and examines the progress of church doctrine. **Doing the Work of Comparative Theology** Veli-Matti Kärkkäinen, 2020-01-28. In a world that is more religiously diverse than ever before, our coworkers and neighbors may well be adherents of other faiths. But how many of us really grasp the similarities and differences between the major world religions? Comparative theology is one increasingly important way to bridge this gap, especially for Christian leaders and professors but also for lay people and students. Veli-Matti Kärkkäinen introduces the nature and work of comparative theology, then delves into a detailed doctrine-by-doctrine comparison of Christian teachings with those of historical and contemporary Judaism, Islam, Buddhism, and Hinduism. With every doctrine, he first presents a summary of consensual Christian belief and then orients the reader to the distinctive teachings of other faith traditions, highlighting parallels and differences. Ideal for students, ministers, instructors, and lay people interested in interfaith dialogue, *Doing the Work of Comparative Theology* distills the comparative theological rigor of Kärkkäinen's *Constructive Christian Theology for the Pluralistic World* series into an accessible and user-friendly textbook. Readers will not only learn basic methodology but also begin to undertake the actual work of comparative theology. **BMJ**, 2003. *The Architects' Journal*, 2003. *Sociology: Your Compass for a New World* Robert J. Brym, 2003. *Quantitative Methods in Practice* David A. Rochefort, 2005-11-02. Every methods course needs to provide students with careful explanations and step-by-step guidance on research design and techniques. But how many illustrations are you offering of particular methods in actual research situations? David Rochefort answers this need with a volume of political science readings that helps students take their knowledge of abstract concepts and integrate it into the broader context of social science research and analysis. A reliable source for high-quality yet concise empirical studies that draws from all sub-fields of political science, PS offers the perfect material to supplement your current text. Rochefort introduces each selection with a substantial headnote to give students context for the type of research and statistical analysis the article utilizes. He then provides a set of questions at the end of each reading that focus on four topics: Why was this research needed? How was this research done? What are the findings? What does it mean? Rochefort also showcases an Author's Retrospective that gives scholars an opportunity to speak directly to students about what they want readers to learn from their article as well as how their perspective on their research has changed since the time of its original publication. An introduction and conclusion speak to the demands of learning statistics in action, and a Topical Guide in the front of the book points students to readings that focus on particular skills and techniques, covering both research methods (questionnaire design and original data collection, for instance) and quantitative techniques (confidence intervals, graphing, crosstabulation, and regression, to name a few). *Kama Muta* Alan Page Fiske, 2019-11-26. This book describes a ubiquitous and potent emotion that has only rarely and recently been studied in any systematic manner. The words that come closest to denoting it

in English are being moved or touched having a heart warming feeling feeling nostalgic feeling patriotic or pride in family or team In religious contexts when the emotion is intense it may be labeled ecstasy mystical rapture burning in the bosom or being touched by the Spirit All of these are instances of what scientists now call kama muta Sanskrit moved by love Alan Page Fiske shows that what evokes this emotion is the sudden creation intensification renewal repair or recall of a communal sharing relationship when love ignites or people feel newly connected He explains the social psychological cultural and likely evolutionary processes involved and how they interlock Kama muta is described as it manifests in diverse settings at many points in history across scores of cultures in everyday experiences as well as the peak moments of life The chapters illuminate the occurrence of kama muta in a range of contexts including religion oratory literature sport social media and nature The book will be of interest to students and scholars from a number of disciplines who are interested in emotion or social relationships Supplementary notes can be found online at www.routledge.com/9780367220945 Books In Print
