Weight Loss Beginner's Guide to Smart Points Vivian Robbins, 2017-09-29. Buy the Paperback Version and get the Kindle Version for FREE. This book covers everything you need to know about how you can lose weight and sustain it with ease. It includes all the information you need to know about using food points: how to calculate them, how to work out your optimal intake per day, how you can still lose weight while eating what you want, and most importantly, how you can integrate a healthy lifestyle into your routine so that once you lose weight it stays off. Many people feel that dieting is restrictive, boring, and prevents them from eating their favorite foods. However, this is not what food points dieting is like at all. It doesn't restrict any kind of food and helps you to lose weight in a flexible way. That is because it derives from the proven concept of calories in vs calories out. The method has been simplified further into a point-based system where instead of counting calories, we are counting instead. Many people fail their diets simply because they are too restrictive or they demand a complete change in lifestyle overnight. We can all agree: restrictive diets rarely work long-term. The food points diet outlined here does not force drastic changes and has a proven track record of success.

What Makes This Book Unique This book is a collection of tried and tested dieting information and a guide to keep you positive whilst dieting. It's built on scientific research and solid facts with easy explanations on how you can calculate your personal daily food points allowance. There are many dieting books out there that talk about quick fixes, but these rarely last long-term. This book is different; it promises long-lasting results through food points and a host of delicious recipes for you to try. Everything is carefully explained step by step with none of the industry jargon, just plain English to make dieting easy and accessible for anyone and everybody.

The Following is Included in this Book: Beginning Your Weight Loss Journey, What Are Food Points And How Do They Work, Calculating Your Daily Points Allowance, Your Shopping List, Your 30 Day Meal Plan, Twenty Great Recipes, Weight Loss Tips And Tricks, Reasons Why You Aren't Losing Weight, Frequently Asked Questions, And much more. the principles you'll need to succeed and keep it off for life. Some help change the way you think about losing weight. All tips are about keeping your head in the game. Here are some of the actual tips you'll find in this book.

Day 13 Replace part of each meal with fruit or salad. Try new different fruits and salad vegetables as they're in season. Fresh fruit is obviously best. Frozen fruit is convenient since it doesn't spoil. Canned fruit isn't the best but if it's a better choice than you usually make, have it.

Day 14 One day at a time, one pound at a time. If you take it one day at a time, one meal at a time, and one decision at a time, you'll see results, one pound at a time.

Day 31 Use my 3 Bite Rule for high-calorie, high-fat, or high-sugar foods: make it 3 bites, even if you can eat it in 1. The trick here is to eat the 3 bites slowly, really slowly, and really enjoy each bite. The first bite is just a warm-up and your taste buds will want another; you really enjoy the second bite and look forward to the next; then that third bite is absolutely satisfying. And since you're satisfied, you don't need another bite. I know my story is not typical and neither is yours. Everybody has obstacles, some more, some less, some more serious, for sure. I KNOW you can do it because I have been where you are right now. If I can do it, you can do it. Through these tips, I will teach you everything I learned through this journey, the thoughts I had, the things I did, and the changes I went through. If you're ready to begin your journey, let's start losing weight today.
