Make Sense of the Material World examines the ways material things objects and pictures were used to reason about issues
of morality race citizenship and capitalism as well as reality and representation in the nineteenth century United States For
modern scholars an object lesson is simply a timeworn metaphor used to describe any sort of reasoning from concrete to
abstract But in the 1860s object lessons were classroom exercises popular across the country Object lessons helped children
to learn about the world through their senses touching and seeing rather than memorizing and repeating leading to new
modes of classifying and comprehending material evidence drawn from the close study of objects pictures and even people In
this book Sarah Carter argues that object lessons taught Americans how to find and comprehend the information in things
from a type metal fragment to a whalebone sample Featuring over fifty images and a full color insert this book offers the
