Occupation, Resistance and Law Adam Roberts,1980      **Documenting WWII: Occupation and Resistance** Simon Adams,2013-06-27      Understanding Resistance to Foreign Occupation Simon Collard-Wexler,2013 There have been some 163 foreign occupations since 1900 In many cases military occupations have led to bloody and protracted resistance while in most cases occupiers faced little resistance at all This dissertation seeks to answer the puzzle under what conditions do foreign occupations produce consequential resistance Conventional wisdom holds that resistance is driven by nationalism However states exhibit different levels of resistance to different occupiers indicating that not only the nature of the occupied but also the nature and the policies of occupiers play a role Specifically I look at the role of political dislocation and trust First domestic groups that would have otherwise waited out the occupation may be driven to resistance when occupiers implement policies or establish institutions that permanently weaken their relative domestic position what I call political dislocation Second resistance will be muted when occupiers can credibly commit to treating the population benignly and vacating occupied territory promptly      **Of Occupation and Resistance** Fahad Shah,2013 Contributed articles

Humanity Ayça Çubukçu, 2018-08-14 On February 15 2003 millions of people around the world demonstrated against the war that the United States the United Kingdom and their allies were planning to wage in Iraq Despite this being the largest protest in the history of humankind the war on Iraq began the next month That year the World Tribunal on Iraq WTI emerged from the global antiwar movement that had mobilized against the invasion and subsequent occupation Like the earlier tribunal on Vietnam convened by Bertrand Russell and Jean Paul Sartre the WTI sought to document and provide grounds for adjudicating war crimes committed by the United States the United Kingdom and their allied forces during the Iraq war For the Love of Humanity builds on two years of transnational fieldwork within the decentralized network of antiwar activists who constituted the WTI in some twenty cities around the world Ay a ubuk u illuminates the tribunal up close both as an ethnographer and a sympathetic participant In the process she situates debates among WTI activists a group encompassing scholars lawyers students translators writers teachers and more alongside key jurists theorists and critics of global democracy WTI activists confronted many dilemmas as they conducted their political arguments and actions often facing interpretations of human rights and international law that unlike their own were not grounded in anti imperialism ubuk u approaches this conflict by broadening her lens incorporating insights into how Amnesty International Human Rights Watch

and the Iraqi High Tribunal grappled with the realities of Iraq's occupation Through critical analysis of the global debate surrounding one of the early twenty first century's most significant world events For the Love of Humanity addresses the challenges of forging global solidarity against imperialism and makes a case for reevaluating the relationships between law and violence empire and human rights and cosmopolitan authority and political autonomy **Palestinian Religious Terrorism: Hamas and Islamic Jihad** Yonah Alexander,2021-10-01 This volume profiles Hamas Harakat al Mugawama al Islamiya main radical Islamic terrorist group dedicated to the destruction of the State of Israel and the Palestinian Islamic Jihad smaller in size but equally committed to eliminating Israel through political violence The aim of this book is not to glorify terrorist movements Rather it is designed to provide an easily accessible reference for academics policy makers reporters and other interested individuals on two of the most notorious Palestinian terrorist groups Published under the Transnational Publishers imprint **Between Resistance and Collaboration** Lynne Taylor,1999 Between Resistance and Collaboration is a study of the impact of the Nazi occupation of northern France on the local population With the establishment of a military dictatorship and a controlled economy the local population faced serious hardship This book explores the impact of those changes on the people and how they dealt with the hardships caused by the changes What is surprising is the variety of means available to the French both to protest against the hardships and force the authorities to do something about them and to evade the plethora of regulations political and economic when the authorities were unable or unwilling to act The range of forms of protest included strikes and work stoppages pillaging foot riots black marketing and theft The picture that is painted is of a more complex relationship between occupier and occupied than is typically assumed

**Traditions of War** Karma Nabulsi,1999 **Fighting Nazi Occupation** Malcolm Atkin,2015-09-18 Everyone knows about the Home Guard but what about the other Secret Intelligence Services SIS and M16 You can read about them in this book This England When Winston Churchill made his we shall never surrender speech in 1940 he was speaking in the knowledge that Britain's Secret Intelligence Service was planning a civilian British resistance movement to mobilize after the country had been occupied Britain's planning for clandestine warfare developed out of a fierce battle between the Secret Intelligence Service and the War Office for the control of guerrilla warfare and conflicting ideas over the legitimacy of armed civilians A multi layered system of secret organizations was the result The Auxiliary Units are the best known of these ungentlemanly forces but in this perceptive new study based on painstaking original research Malcolm Atkin clearly demonstrates that they were never intended as a resistance organization Instead they were designed as a short term guerrilla force whilst their Special Duties Branch was designed to spy on the British public as much as any Nazi invader Meanwhile deep in the shadows was the real resistance organization Section VII of SIS Malcolm Atkin's conclusions will cause controversy among military historians and will change our understanding of the preparations made in Britain to resist Nazi occupation in the Second World War A detailed yet accessible historical study ProtoView **Gender and Political Support** Minna

Cowper-Coles,2022-08-05 This book finds and explores a gender gap in political support in the Occupied Palestinian Territories whereby more women than men support Hamas and more men than women support Fatah The author then shows how economic interests and religion largely explain this gender gap and explores how the Israeli occupation the Israel Palestine conflict women s rights nationalism and political repression impact Palestinian political support She demonstrates how religion interacts with nationalist discourses which in turn reinforce differential gender roles in Palestine She also shows how patronage impacts political support in a gendered way with Fatah s ability to provide employment opportunities being strongly linked to their support base amongst men The book concludes with an analysis of similar trends in the wider Middle East with women across the region tending to prefer religious parties compared with men While making an important contribution to studies of Palestinian politics this book also has implications for much broader issues such as explorations of gender and political support beyond the Western context and understanding widespread female support for Islamist parties in the Middle East It highlights the importance of situating explorations of political support within their wider context so as to understand how particularities of ideologies economies and social structures might interact in a specific political system This book will be of great interest to students and scholars of gender studies Middle East studies and comparative politics It will also appeal to those with a broader interest in Middle East politics and development
