Adapting to Climate Change Matthew E. Kahn, 2021-03-30 A revelatory study of how climate change will affect individual economic decisions and the broad impact of those choices Selected by Publishers Weekly as one of its Top Ten books in Business and Economics for Spring 2021 It is all but certain that the next century will be hotter than any we ve experienced before Even if we get serious about fighting climate change it s clear that we will need to adapt to the changes already underway in our environment This book considers how individual economic choices in response to climate change will transform the larger economy Using the tools of microeconomics Matthew E Kahn explores how decisions about where we live how our food is grown and where new business ventures choose to locate are impacted by climate change Kahn suggests new ways that big data can be deployed to ease energy or water shortages to aid agricultural operations and proposes informed policy changes related to public infrastructure disaster relief and real estate to nudge land use transportation options and business development in the right direction

Tesla Carbon Pigs, Climate Change, Environmental Equity and Liberal Democracy Peter Thalheim, 2023-08-28 Read how the typical TESLA electric vehicle driver is more affluent than the average citizen and consumes considerably more carbon to live their comfortable lives at their first or second home with their private clubs take out food household staff extensive vacations etc The vow of poverty to immediately aid our environment is not in the cards for these carbon pigs or for the rest of us for that matter Most of us fall short between our personal consumption habits and our public persona expressing concern for our environment Read how amazon prime is unsustainable at any speed of delivery as other delivery options albeit slower are

already in your neighborhood Read about various strategies of solar wind hydrogen fusion efuels and others to ameliorate our stress on the environment living our comfortable and consumptive lifestyles which include cell phones laptops and social media We should do whatever we can for the environment provided it does not raise the cost of living for the poor They should not bear the brunt of greenwashing the environmental conscience of our betters those with a higher net worth and or higher education degree than the rest of us Eliminating the United States economy from the world s ecosystem would have a negligible impact on preventing the rise in average global temperature of 1.5 degrees Celsius proposed by the Paris Climate Accord by the year 2100 yet the United States is imperative for the liberal democratic project of expanding the Rule of Law to more of our brother and sister citizens around the globe versus Rule of Man totalitarian regimes like China and Russia who care not for international rules and norms of conduct You decide
