**Next Generation Internet** Peter Hoffmann, 2025-01-07 The development of the internet, particularly the World Wide Web, is currently hitting its limits both technically and socio-culturally, as well as economically. What technical and technological challenges must be overcome to achieve such a merging? What economic opportunities arise, and which ones may be precluded? How can we ensure that an open and universally accessible metaverse is created? And how can we prevent a few large providers from imposing their proprietary ideas in this new metaverse? This book aims to provide answers to these questions.
