## **Operation Autonomous With Soe In Wartime Romania:**

*Operation Autonomous* Ivor Porter, 2012-09-28 Ivor Porter first came to Romania in 1939 as a teacher of English to the exotic semi oriental Bucharest described by Olivia Manning. After the war had broken out and Romania had been absorbed into the Axis sphere of influence he together with his fellow expatriates was forced to leave a colourful turbulent country to which he had become increasingly attached but he was to return in 1943 as a member of SOE parachuted in to play his part in the plot to overthrow the pro Nazi regime of Marshal Antonescu and install a government more sympathetic to the Allied cause. Operation Anonymous and the successful coup that followed in 1944 may well have hastened the end of the war by several months by helping the Red Army to sweep through the Carpathians into Central Europe and south to the frontiers of Greece yet for the Romanians themselves Russia rather than Germany was the ancient enemy. Mixing the author's own experiences with detailed diplomatic and military history Operation Autonomous opens up an important and neglected aspect of the war and one that was to have momentous implications for the settlement of post war Europe.

**The Big Three Allies and the European Resistance** Tommaso Piffer, 2024

While the Big Three and their continental Allies fought against Nazi Germany another war was under way on the continent the war to shape the political landscape of post war Europe. In the Balkans the war overlapped with political and ethnic conflicts engulfing the region in bloody civil wars. In Central and Eastern Europe partisan movements engaged the Germans without losing sight of the danger posed by the arrival of the Red Army. In France and in Italy the adoption of the slogans of national liberation provided the communist parties with a formidable democratic legitimacy which established them as key players in the political lives of their countries. The British and the Americans worked to stir up support control and direct these resistance groups. London created the Special Operations Executive SOE and Washington the Office of Strategic Services OSS both of whom sent agents into occupied Europe to liaise directly with the guerrilla groups. Through the Comintern Moscow carefully coordinated the actions of the European communist parties with the foreign policy of the Soviet Union which was acting for the first time as a key player in the arena of international relations. The forests and the mountains where the partisans were fighting the Germans soon became a major part of the proxy war that the Big Three waged to shift

the post war geopolitical balance in their favour Looking for the first time at the Big Three in a comparative study and spanning Europe from Yugoslavia to Poland from Greece to France and Italy this book vividly depicts and sharply analyses how this proxy war shaped the history of the post war settlement In so doing Piffer deftly connects high political histories with history from below making the book important reading for all those interested in the history of the war and cold war communism and Resistance and diplomacy and intelligence
