**Writing Spaces 1** Charles Lowe, Pavel Zemliansky, 2010-06-18  
 Volumes in Writing Spaces Readings on Writing offer multiple perspectives on a wide range of topics about writing much like the model made famous by Wendy Bishop's The Subject Is series. In each chapter authors present their unique views, insights and strategies for writing by addressing the undergraduate reader directly. Drawing on their own experiences, these teachers as writers invite students to join in the larger conversation about developing nearly every aspect of craft of writing. Consequently, each essay functions as a standalone text that can easily complement other selected readings in writing or writing intensive courses across the disciplines at any level. Topics in Volume 1 of the series include academic writing, how to interpret writing assignments, motives for writing, rhetorical analysis, revision, invention, writing centers, argumentation, narrative, reflective writing, Wikipedia, patchwriting, collaboration and genres.

**The Student Writer** Barbara Fine Clouse, 2004  
*Nurturing Your Child's Math and Literacy in Pre-K-Fifth Grade* Mary Mueller, Alisa Hindin, 2016-11-23  
 With recent changes in the curriculum and standards in language arts and mathematics, parents often are challenged to find ways to help their children be successful in their learning endeavors. While parents want to be involved in their children's education, they are often unsure of their role in their children's learning and the best ways to help their children to succeed academically. Moreover, with the changes in how math and literacy are being taught, parents often struggle with helping even first grade children with their homework. In this book, we set out to alleviate this struggle by offering parents a resource they can use to navigate their child's education, communicate with teachers and support their children in learning mathematics and literacy. After providing an overview of the current educational climate and tips for communication with teachers, we share strategies and suggestions parents can use to assist their children in language arts and mathematics. We provide detailed descriptions of activities, games, books and conversations that connect with what children will be learning at each grade level.
