Creativity from Suburban Nowheres Ilja Van Damme, Ruth McManus, Michiel Dehaene, 2023-07-26 Looking at suburbs as places of creativity gives rise to novel and thought provoking narratives that typically run counter to the idea that suburbs are sites of ordinary mundane and everyday practices. Far from being geographies of nowhere dull materialistic and monotone suburbs are unpacked as being heterogeneous and historically layered places of living work and creation. Situating creativity in place and time Creativity from Suburban Nowheres displaces mainstream understandings of creativity and widespread stereotypes commonly associated with the suburbs. Contributors explore the particular forms of creativity that suburbs elicit both in the process of their making materialization and community construction and in the myriad ways in which suburbs are inhabited and experienced. They highlight accounts of suburbs as places that give people the space and latitude to shape individual and collective identities through creative practices at odds with mainstream culture and often remote from the classic agglomeration assets associated with inner cities. Anchored in historical and geographical research this volume highlights how and in what forms creativity should be understood in the suburbs why and when creativity can be found and how the notion of suburban creativity overthrows ingrained and dominant normative viewpoints. Rather than seeing creativity arise despite its suburban location Creativity from Suburban Nowheres illuminates the emancipatory potential of suburbs for creativity
