European Public-private Collaboration Ulrika Mörtz,2008 This book looks at some of the major themes concerning governance in the EU namely the focus on market friendly regulations output legitimacy and how the requirement of efficiency is combined with the requirement of democratic accountability The dilemma between efficiency and democratic accountability is analysed in three cases of close collaboration between public and private actors the European satellite navigation programme Galileo the European Investment Bank and health policies and the European financial market especially the banking sector The background to this interest in the dilemma between efficiency and democratic accountability is that this is a time when the borders between the public and private spheres are being re evaluated transferred and becoming more porous The author

Soft Law in Governance and Regulation Ulrika Mörtz, 2004 A rising interdependence among the members of international society and of global civil society has led to an increasing demand for governance without government The new regulatory mode is characterized as a soft law framework The contributors to this book define soft law in terms of legally non binding rules such as recommendations codes of conduct and declarations though they acknowledge the difficulty sometimes faced in differentiating between hard and soft law whose boundaries are in practice often blurred Focussing largely on the European experience the book shows how soft law in the EU has become an important regulatory tool in traditional policy areas like state aid and in new policy areas especially within EU's employment policy It also extends the analysis to the international stage arguing that international institutions such as the OECD the UN the IMF and the World Bank have for decades used soft law as a means indeed their only means of regulating international agreements Comparisons between the two arenas are then drawn and indicate very different roles for soft law This book will appeal to scholars of European law and politics as well as those involved with or interested in the policy implications of this mode of governance
