Beyond Mobility Robert Cervero, Erick Guerra, Stefan Al, 2017-12-05 Beyond Mobility also seeks to rethink how projects are planned and designed in cities and suburbs at multiple geographic scales from micro designs such as parklets to corridors and city regions. The book closes with a reflection on the opportunities and challenges in moving beyond mobility with attention to emerging technologies such as self driving cars and ride hailing services and social equity topics such as accessibility, livability and affordability. *Playing and Learning Outdoors* Jan White, 2019-09-06 Fully updated to reflect the current status and understandings regarding outdoor provision within early childhood education frameworks across the UK this new edition shows early years practitioners how to get the very best from outdoor play and learning for the enjoyment, health and education of young children up to age seven. This invaluable resource gives sound practical guidance for providing play with water, sand and other natural materials, experiences with plants growing and living things, movement and physical play, construction, imaginative and creative play and explorations into the locality and community just beyond your garden. This full colour third edition has been further developed to act as a comprehensive source book of relevant materials, books and resources supporting the core ingredients of high quality outdoor provision while each chapter also includes extensive collections of children's picture books relating to the themes within each chapter. *Playing and Learning Outdoors* has become the essential practical guide to excellence in outdoor provision and pedagogy for all early years services. This lively, inspiring and accessible book will help every educator to develop truly successful and satisfying approach to learning through play outdoors for every child.

Nearly everything we treasure in the world's most beautiful cities was built over a century ago. Cities like Prague, Paris and Lisbon draw millions of visitors from around the world because of their exquisite architecture, walkable neighborhoods and human scale. Yet a great deal of the knowledge and practice behind successful city planning has been abandoned over the last hundred years not because of traffic, population growth or other practical hurdles but because of ill-considered theories emerging from Modernism and reactions to it. The errors of urban design over the last century are too great not to question. The solutions

being offered today sustainability walkability smart and green technologies hint at what has been lost and what may be regained but they remain piecemeal and superficial In The Art of Classic Planning architect and planner Nir Haim Buras documents and extends the time tested and holistic practices that held sway before the reign of Modernism With hundreds of full color illustrations and photographs that will captivate architects planners administrators and developers The Art of Classic Planning restores and revitalizes the foundations of urban planning Inspired by venerable cities like Kyoto Vienna and Venice and by the great successes of L'Enfant's Washington Haussmann's Paris and Burnham's Chicago Buras combines theory and a host of examples to arrive at clear guidelines for best practices in classic planning for today's world The Art of Classic Planning celebrates the enduring principles of urban design and invites us to return to building beautiful cities
