Inclusive Ethical Cultures in STEM Elisabeth Hildt, Kelly Laas, Eric M. Brey, Christine Z. Miller, 2024-02-22 This book shares innovative approaches to effectively engage students and faculty working in research labs lab based classrooms and courses to build inclusive ethical cultures The frameworks and approaches presented move beyond traditional research ethics training to strengthen the ethical culture in research labs The chapters in the book showcase best practices and approaches to embedding educational interventions in courses research labs and departments The book is based on the two day workshop Building Inclusive Ethical Cultures in STEM April 23 24 2021 Moving beyond the two day conference that inspired this collected volume the various chapters address questions like What are approaches and tools to integrate ethics education in STEM effectively How can STEM ethics education be improved What can researchers do to build more inclusive research environments How can meaningful discussions about ethics be effectively integrated into STEM courses research labs and workplace environments While each chapter takes a different perspective and is located in its respective context the contributions are united by the goal of effectively including ethical reflection in STEM education Instructors from both four year and two year colleges who teach STEM and lab based STEM courses young principal investigators junior faculty who are in the process of building their research groups departmental chairs interested in programmatic approaches for improving mentoring research ethics education and the research culture of their department will find this work to be a very valuable resource in their daily practice **The New Politics of the Textbook** Heather Hickman, Brad J.

Porfilio, 2012-10-13 In an age of unprecedented corporate and political control over life inside of educational institutions this book provides a needed intervention to investigate how the economic and political elite use traditional artifacts in K 16 schools to perpetuate their interests at the expense of minoritized social groups The contributors provide a comprehensive examination of how textbooks the most dominant cultural force in which corporations and political leaders impact the schooling curricula shape students thoughts and behavior perpetuate power in dominant groups and trivialize social groups who are oppressed on the structural axes of race class gender sexuality and disability Several contributors also generate critical insight in how power shapes the production of textbooks and evaluate whether textbooks still perpetuate dominant Western narratives that normalize and privilege patriotism militarism consumerism White supremacy heterosexism rugged individualism technology and a positivistic conception of the world Finally the book highlights several textbooks that challenge readers to rethink their stereotypical views of the Other to reflect upon the constitutive forces causing oppression in schools and in the wider society and to reflect upon how to challenge corporate and political dominance over knowledge

production *Overtested* Jessica Zacher-Pandya, 2015-04-24 This timely book explores what is often overlooked in policy debates about the education of English language learners how the day to day dynamics of the classroom are affected by high stakes testing and the pressures students and teachers experience and internalize as a result The author presents and analyzes classroom observations student work and test scores as well as interviews with students and teachers A disturbing picture of today's overtested public school classroom emerges from the events and practices described in this book While hard to believe all the depictions presented took place in a real elementary school classroom and reflect the current culture of extreme accountability *Overtested* not only describes the flaws in our current accountability system but it also provides real world solutions that can have an immediate and positive effect at the classroom state and national level Chapters address key debates such as how to measure proficiency the validity of various language assessment tools the overuse of assessment and the risks and benefits of teaching language arts to English language learners via mandated structured curricula Jessica Zacher Pandya is an Associate Professor in the Departments of Teacher Education and Liberal Studies at California State University Long Beach This book tells an important tale that cannot be conveyed by numbers and tables It is important information for teachers for those who depend on employ and train teachers and for those who create the policies under which teachers are required to operate From the Foreword by Robert Rueda University of Southern California author of *The 3 Dimensions of Improving Student Performance Finding the Right Solutions to the Right Problems* How many more dire tales of schooling for assessment must be told before we realize that teaching and testing are not the same and that scores on standardized multiple choice achievement tests are a sorry substitute for an engaging learning environment In this book Jessica Zacher Pandya reaches across ideological and institutional borders to offer reasonable pragmatic solutions for change Linda Valli Jeffrey David Mullan Professor of Teacher Education Professional Development College of Education University of Maryland Zacher Pandya's invaluable book exposes the injustices and absurdities of our high stakes accountability era Just as importantly it limns a more academically robust and culturally relevant instructional vision for English language learners Gerald Campano University of Pennsylvania **The Crisis** ,1999-03 The Crisis founded by W E B Du Bois as the official publication of the NAACP is a journal of civil rights history politics and culture and seeks to educate and challenge its readers about issues that continue to plague African Americans and other communities of color For nearly 100 years The Crisis has been the magazine of opinion and thought leaders decision makers peacemakers and justice seekers It has chronicled informed educated entertained and in many instances set the economic political and social agenda for our nation and its multi ethnic citizens **The New Crisis** ,1999 *Resources in Education* ,1992-12 **The Story of the Underground Railroad** KaaVonia Hinton, 2010-09 No one really knows when the Underground Railroad began but we do know this network of blacks whites Native Americans and others helped thousands of escapees reach free land Find out about the secret world of conductors agents and stations that helped enslaved people in North America gain freedom from
