Official Gazette of the United States Patent and Trademark Office ,1995 *You Must Become an Algorithmic Problem*
José Marichal,2025-09-16 In the age of AI where personal data fuels corporate profits and state surveillance what are the implications for democracy This incisive book explores the unspoken agreement we have with tech companies In exchange for reducing the anxiety of an increasingly complex online world we submit to algorithmic classification and predictability This reduces incentives for us to become algorithmic problems with dire consequences for liberal democracy He calls for a movement to demand that algorithms promote play creativity and potentiality rather than conformity This is a must read for anyone navigating the intersection of technology politics and identity in an increasingly data driven world

Mis/Disinformation and Democratic Society Melissa Zimdars,2025-06-16 Drawing on a variety of perspectives and methodologies this collection explores the intricate relationship between mis and disinformation and the functioning of democratic society This book seeks to show how mis and disinformation is destabilizing our collective confidence in institutions fundamental to the functioning of democratic society including our electoral processes our perceptions of trust in government officials and institutions our healthcare education economic and media systems and even our communities and interpersonal relationships Topics covered in this book include the role of Artificial Intelligence in automating deception how financial crises and journalistic norms in the news industry create favorable conditions for the amplification and laundering of political disinformation and how our emotional states impact our susceptibility to misinformation Throughout the authors provide nuanced definitions of key terms such as conspiracy theory and digital democracy which help level the field for future research Mis Disinformation and Democratic Society is recommended reading for researchers and advanced scholars in this dynamic area of study
