Outside Lies Magic:

Outside Lies Magic John R. Stilgoe, 2009-05-26 Outside Lies Magic is a book about the acute observation of ordinary things about becoming aware in everyday places about seeing in utterly new ways about enriching your life unexpectedly. For more than 20 years John R Stilgoe has developed and practiced the art of exploring the everyday world around us where so much lies hidden just beneath the surface offering uncommon knowledge if we but know what to look for. In this remarkable book Stilgoe inspires us to become explorers on our own on foot or on bicycle and by so doing to reap the benefits of escaping even temporarily the traps of our programmed lives. Exploration encourages creativity, serendipity, invention, he writes. And while sharing his insights on how to explore, Stilgoe provides a fascinating pocket history of the American landscape as striking in its originality as it is revealing. Stilgoe dissects our visual surroundings, his observations will transform the way you see everything. Through his eyes an abandoned railroad line is redolent of history and future promise, front lawns recall our agrarian past, vacant lots hold cathedrals of potential. From the electrical grid overhead to fences, malls and main streets, Stilgoe offers a fresh understanding of the links and fractures in our society. After reading Outside Lies Magic, your world will never look the same again.

The Last Undiscovered Place David K. Leff, 2004 Through descriptions of the town's schools, streets, homes and natural surroundings, Leff offers this affectionate, insightful portrait of his adopted home of Collinsville, Connecticut, a village that looked perfectly ordinary until he fell prey to its rhythms and charm.

Advances in Human Factors in Training, Education, and Learning Sciences Salman Nazir, Anna-Maria Teperi, Aleksandra Polak-Sopińska, 2018-06-27 This book focuses on the importance of human factors in optimizing the learning and training process. It reports on the latest research and best practices and discusses key principles of behavioral and cognitive science which are extremely relevant to the design of instructional content and new technologies to support mobile and multimedia learning, virtual training and web based learning among others as well as performance measurements, social and adaptive learning and many other types of educational technologies with a special emphasis on those important in the corporate, higher education and military training contexts. Based on the AHFE 2018 Conference on Human Factors in Training Education and Learning Sciences held July 21-25, 2018 in Orlando, Florida, USA, on July 21-25, 2018, the book offers a timely perspective on the role of human factors in education. It highlights important new ideas and will foster new discussions on how to optimally design learning experiences.
