Neuropsychological Rehabilitation Barbara Wilson, Jill Winegardner, Caroline van Heugten, Tamara Ownsworth, 2017-06-20. This outstanding new handbook offers unique coverage of all aspects of neuropsychological rehabilitation. Compiled by the world's leading clinician researchers and written by an exceptional team of international contributors, the book is vast in scope, including chapters on the many and varied components of neuropsychological rehabilitation across the life span within one volume. Divided into sections, the first part looks at general issues in neuropsychological rehabilitation, including theories and models, assessment, and goal setting. The book goes on to examine the different populations referred for neuropsychological rehabilitation and then focuses on the rehabilitation of first cognitive and then psychosocial disorders. New and emerging approaches such as brain training and social robotics are also considered alongside an extensive section on rehabilitation around the world, particularly in under-resourced settings. The final section offers some general conclusions and an evaluation of the key issues in this important field. This is a landmark publication for neuropsychological rehabilitation. It is the standalone reference text for the field as well as essential reading for all researchers, students, and practitioners in clinical neuropsychology, clinical psychology, occupational therapy, and speech and language therapy. It will also be of great value to those in related professions such as neurologists, rehabilitation physicians, rehabilitation psychologists, and medics.

Essentials of Neuropsychological Rehabilitation Barbara A. Wilson, Shai Betteridge, 2019-09-04. For people with disabilities caused by nonprogressive brain injury, challenges in everyday living can be multifaceted and overwhelming. This book presents key principles of holistic neuropsychological rehabilitation, helping practitioners stay on track through complex terrain. Leading authorities Barbara A. Wilson and Shai Betteridge provide a framework for effective intervention based on a collaborative understanding of clients' strengths and needs. They describe essential strategies for assessing and remediating the impact of cognitive and psychosocial problems in everyday life. Detailed case examples illustrate the process of building partnerships with families, setting meaningful goals, developing skills and supports, and addressing emotional and mental health concerns. Innovative uses of technology are highlighted. Several reproducible clinical tools can be downloaded and printed in a convenient 8 1/2 x 11 size.

Cognitive Rehabilitation McKay Moore Sohlberg, Catherine A. Mateer, 2017-02-13.
