**World** Martin Jacques,2009 For over two hundred years we have lived in a western made world one where the very notion of being modern was synonymous with being western This original and ground breaking new book argues that the twenty first century will be different With the rise of increasingly powerful non Western countries the west will no longer be dominant and there will be many ways of being modern In this new era of contested modernity the central player will be China Far from becoming a western style society China will remain highly distinctive Continental in size and mentality and accounting for one fifth of humanity China is a civilization state whose characteristics attitudes and values long predate its existence as a nation state China is already having a far reaching and much discussed economic impact but its influence will be far greater than this China s rise signals the end of the global dominance of the western nation state and the rise of a world which it will shape in a host of different ways As it rapidly reassumes its traditional position at the centre of East Asia the old tributary system will be resurface in a modern form contemporary ideas of racial hierarchy will be redrawn and China s ages old sense

of superiority will reassert itself China s rise will change the world as we know it from one made in the west to one increasingly shaped by China This profound and far sighted book explains for the first time the deeper meaning of China s arrival as a global power
