The Ultimate Guide to Accelerate Weight Loss, Reset Your Metabolism, Increase Your Energy, and Detox Your Body Willie Gooding, 2021-03-19 Gaining weight as we age is a given. Whether it's from lack of exercise, hormone shifts or illness our metabolism slows and it becomes more difficult to keep weight off. Intermittent fasting is one way we can bypass this problem by giving ourselves mini breaks from digestion which is the most energy intensive activity in our bodies. These breaks help the body use up its stores of fat for fuel instead of relying on food consumption to power us through the day. In my book *Intermittent Fasting for Women over 50* I discuss how fasting for women over 50 can be a solution to the issues with weight loss and health. I discuss all the benefits of fasting for women over 50 including reduced risk of disease, improved metabolism so we burn more fat, increased energy levels which make it easier to work out and eat healthier, reduced cortisol levels which improves sleep quality and makes you feel more alert during the day. By reading this book you will master:

1. How to boost your metabolism by using Intermittent Fasting for Women Over 50
2. How to burn fat without exercise
3. How to feel energized and lose weight at the same time

In my book I reveal The two most effective diets for fast and sustainable fat loss. The scientifically proven reasons these diets work so well. Recipes to make every weight loss meal a joy to eat. How to assess the effectiveness of each diet so you can choose the right one for you. I know what you are thinking: this all sounds too good to be true. Normally I'd agree with you. But this is not just another fad diet and I'm not going to ask you to do anything I haven't done myself. I've won my personal battle against weight gain and you can too. Everything in this book has been tried, tested and proven to work and it's written from the heart. With my help you can start losing weight tomorrow. The longer you delay the harder it will be and the greater the risk is to your health. It's time to lose weight once and for all. Make your next diet your last diet.
