Electric Vehicle This Week Tutorial:

The Speed of Green, Grade 8 Carla C. Johnson, Janet B. Walton, Erin E. Peters-Burton, 2023-03-30 What if you could challenge your eighth graders to design a racing vehicle with minimum environmental impact while exploring the role of renewable and non renewable energy sources With this volume in the STEM Road Map Curriculum Series you can The Speed of Green outlines a journey that will steer your students toward authentic problem solving while grounding them in integrated STEM disciplines Like the other volumes in the series this book is designed to meet the growing need to infuse real world learning into K 12 classrooms This interdisciplinary eight lesson module uses project and problem based learning to help students explore the potential role of renewable and non renewable energy sources in transportation with an emphasis on the auto industry Using their understanding of the engineering design process EDP scientific concepts and environmental conservation considerations student teams will develop a plan for a competitive automobile racing team to fuel its vehicle with minimal environmental impact To support this goal students will do the following Identify finite energy resources and distinguish between these and renewable energy sources and identify implications of the use of those fuel sources on the environment Conduct life cycle analyses LCAs of various fuel sources and apply the results to make decisions about the effects of various fuel sources Identify several ways that carbon based fuels have impacted the U S economy and foreign relations Identify the effects of human activities on the biosphere with an emphasis on the effects of the widespread use of carbon based fuels Apply the engineering design process EDP to solve a problem and design and build a small scale electric vehicle Synthesize their learning and working collaboratively by creating and presenting a plan for a race team that minimizes its environmental impact Create an engaging presentation incorporating oral presentations and visual displays to present projects to an audience of peers teachers and industry professionals The STEM Road Map Curriculum Series is anchored in the Next Generation Science Standards the Common Core State Standards and the Framework for 21st Century Learning In depth and flexible The Speed of Green can be used as a whole unit or in part to meet the needs of districts schools and teachers who are charting a course toward an integrated STEM approach [AUTOMOTIVE SALES CURRICULUM](#) Norman Freeman Sr, 2025-07-31 The heart of this course is the NEFCONT 10 2 selling system pronounced Neph Con T The core is the processes used to address the needs of a person who wants to purchase a car from an organization that will provide all the security that goes with a reputable business The below steps the 10 2 selling system process when followed to their conclusion will produce the desired results These steps are not finite Each step may be redesigned by the user and shaped to produce an outcome that you may choose The breakdown of these steps as I present them may be changed to reflect the desires of the person performing them However the steps as presented here represent industry standards that produce the results preferred by the majority of professionals in the industry Follow these steps and learn the fundamentals of selling an automobile using all the techniques used by professionals in the business over the period

since the end of World War II Learn to properly meet a customer when they come to the dealership and how to talk to them in a way that helps you to understand their wants and needs Gain an understanding of how to determine what you should tell a customer about a vehicle and how to detect if you have something he or she is interested in buying Learn how to execute a demonstration drive using techniques promoted by all the trainers over many years of practice Gain an understanding of how to present a price to a customer and not leave all the profit on the table Get the fundamentals of asking for the sale and then carrying out the basics to deliver a vehicle working in conjunction with the other staff in the dealership **NJN ...**
