feet and cow feet How all of a sudden blacks became lazy as soon as slavery was over Can you begin to see the design now 4
By design It is a design in plain sight Many people cannot see it Those who see it are incapable to do anything about it
because by design the whole plot has been legislated into law Just like apartheid the various governments and departments
at many levels justified the discrimination through laws the oppressed cannot surmount It was so then and it is so today with
little or no legislative modification in sight Have you ever imagined why the 44th president of United States is having so
much problems with the Congress You think the Congress populated by mostly old white men are giving the black president
a tough time because of race Or you think they hate the first black president of the union If you answered yes to any of these
questions you are yet to understand the workings of a country some have christened God s own Country The fear of a black
president undoing four hundred years of discriminative laws the phobia of taking down the protections of the rich
landowners and the enforcers of that protection led to a section of a congress to proclaim from day 1 of the black president s
inauguration if Obama wants it we reject it right off the bat This simply means an opposition to President Obama s policies on
all fronts Some were not hiding their enthusiasm for an Obama failure they worked for it They feared an Obama presidency
that might implement programs that would invite non whites to participate thus engaging in capitalism Slogans like take our
country back were dusted up for re use It was strategic They were all noises meant to drown some of Obama s signature
programs like the affordable care act popularly known as Obamacare It has always been by design *SAT Prep Plus 2018*
