Transforming Performance Measurement Dean R. Spitzer, You can't accurately gauge your company's performance if you don't know what or how to measure It's no secret that you can't improve your organization's performance without measuring it In fact every function unit process and the organization as a whole is built and run according to the parameters and expectations of its measurement system So you'd better make sure you're doing it right All too often performance measurement creates dysfunction whether among individuals teams or across entire divisions and companies Most traditional measurement systems actually encourage unhealthy competition for personal gain creating internal conflict and breeding distrust of performance measurement Transforming Performance Measurement presents a breakthrough approach that will not only significantly reduce those dysfunctions but also promote alignment with business strategy maximize cross enterprise integration and help everyone to work collaboratively to drive value throughout your organization Performance improvement thought leader Dean Spitzer explains why performance measurement should be less about calculations and analysis and more about the crucial social factors that determine how well the measurements get used His socialization of measurement process focuses on learning and improvement from measurement and on the importance of asking such questions as How well do our measures reflect our business model How successfully are they driving our strategy What should we be measuring and not measuring Are the right people having the right measurement discussions Performance measurement is a dynamic process that calls for an awareness of the balance necessary between seemingly disparate ideas the technical and the social aspects of performance measurement For example you need technology to manage the flood of data but you must make sure that it supports the people who will be making decisions and taking action crucial to your organization's success This book shows you how to design that technical social balance into your measurement system While it is urgent to start taking action now transforming your organization's performance measurement system will take time Transforming Performance Measurement gives you assessment tools to gauge where you are now and a roadmap for moving with little or no disruption to a more transformational and mature measurement system The book also provides 34 TMAPs
