Donald Lazere,1987 On subjects from Superman to rock n roll from Donald Duck to the TV news from soap operas and romance novels to the use of double speak in advertising these lively essays offer students of contemporary media a comprehensive counterstatement to the conservatism that has been ascendant since the seventies in American politics and cultural criticism Donald Lazere brings together selections from nearly forty of the most prominent marxist feminist and other leftist critics of American mass culture from a dozen academic disciplines and fields of media activism The collection will appeal to a wide range of students scholars and general readers Book Jacket      **Catalog of Copyright Entries. Kennedy,1993-07-30 This book is the first about military media relations to argue for a fundamental restructuring of national journalism and the first to document the failure of American journalism in the national security field for the past thirty years Press complaints of excessive control by the military during the Persian Gulf War of 1990 91 were the inevitable result of the failure of American journalism to train competent specialists in military reporting and to provide an organizational structure that would assure continuing comprehensive coverage of national defense in peace and war This in turn is the result of retaining the city room concept as the basic organizational feature of the press with continuing reliance on the generalist in an age that demands increasingly well trained specialists So long as the press fails to modernize its basic methods of training to assure well trained defense specialists the military will be required to closely control reporters as in the Persian Gulf War as a basic requirement of security for armed forces members and the national interests Permitting the military to control how the military itself is reported is a grave danger to the democratic process Yet so long as the press refuses to accept responsibility for large scale reform the public will continue to support close military control as an essential element of safety for its sons and daughters in the armed forces and out of concern for the success of U S military operations This book will be of interest to students of the press of the military and of the media at large      **Broadcasting in America** Sydney W.
