**of Climate Change** Ordóñez de Pablos, Patricia, 2022-06-24 Cities, economies and societies around the world must address the urgent global challenges such as climate change or the transition towards a greener and digital economy. It is important that economies are transformed into resource efficient, competitive and resilient ones. In the context of rapid change, transformative technologies like artificial intelligence, AI, blockchain or the internet of things, IoT, play a key role in this digital transition across a wide range of areas. The Handbook of Research on Building Greener Economics and Adopting Digital Tools in the Era of Climate Change discusses global challenges like the transition towards a circular, greener and digital economy. It proposes actions to advance the agenda towards climate friendly businesses and economies. The book fosters cooperation among researchers, companies and policymakers to share national initiatives and disseminate relevant knowledge. Covering topics such as cross cultural communication, green product consumption and organization performance strategies, this major reference work is an essential resource for business leaders and managers, entrepreneurs, government officials, politicians, policymakers, environmentalist organizations, students and faculty of higher education, researchers and academicians.
