A Ralph Waldo Emerson Award Finalist. One of Bustle's Books For Your Civil Disobedience Reading List. Ralph Young's stunningly comprehensive volume examines the key role dissent has played in shaping the United States focusing on those who from colonial days to the present dissented against the ruling paradigm of their time from the Puritan Anne Hutchinson and Native American chief Powhatan in the seventeenth century to the Occupy and Tea Party movements in the twenty-first. At its founding the United States committed

itself to lofty ideals When the promise of those ideals was not fully realized by all Americans many protested and demanded that the United States live up to its promise Women fought for equal rights abolitionists sought to destroy slavery workers organized unions Indians resisted white encroachment on their land radicals angrily demanded an end to the dominance of the moneyed interests civil rights protestors marched to end segregation antiwar activists took to the streets to protest the nation s wars and reactionaries conservatives and traditionalists in each decade struggled to turn back the clock to a simpler more secure time Some dissenters are celebrated heroes of American history while others are ordinary people frequently overlooked but whose stories show that change is often accomplished through grassroots activism Dissent emphasizes how these Americans responded to what they saw as the injustices that prevented them from fully experiencing their vision of America A must read for any citizen interested in making a stronger democracy Pulitzer Prize winning author Heather Ann Thompson
