## Intelligent Addressable Fire Alarm System

Intelligent Fire Alarm Control Panels

### General

The NFS2-640 Intelligent Fire Alarm Control Panel is part of the ONNIX® Series of Fire Alarm Controls from NOTIFIER.

In stand-alone or network configurations, ONNIX Series products meet virtually every application requirement.

The NFS2-640's modular design makes system planning easier. The panel can be configured with just a few devices for small building applications, or interconnected with many devices to protect a large campus or a high-rise office block. Simply add additional peripheral equipment to suit the application.

A host of other options are available, including single- or multi-channel voice, firefighter's telephone, LED, LCD, or PC-based graphic communications, networking, advanced detection products for challenging environments, wireless fire protection, and many additional options.

**NOTICE:** Unless called out with a version-specific "E" at the end of the part number, "NFS2-640" refers to models NFS2-640 and NFS2-640E; similarly, "CPU2-640" refers to models CPU2-640 and CPU2-640E.
