# November Maths Past Paper Wjec 2013

**Mortimore, Peter**

## November Maths Past Paper Wjec 2013:

**Education under Siege** Mortimore, Peter, 2013-09-23 At a time when education is considered crucial to a country's economic success recent UK governments have insisted their reforms are the only way to make England's system world class. Yet pupils are tested rather than educated teachers bullied rather than trusted and parents cast as winners or losers in a gamble for school places. Education under siege considers the English education system as it is and as it might be. In a highly accessible style Peter Mortimore an author with wide experience of the education sector both in the UK and abroad identifies the current system's strengths and weaknesses. He concludes that England has some of the best teachers in the world but one of the most muddled systems. Challenging the government's view that there is no alternative he proposes radical changes to help all schools become good schools. They include a system of schools receiving a fair balance of pupils who learn easily and those who do not, ensuring a more even spread of effective teachers as well as banning league tables, outlawing selection, opening up faith schools and integrating private schools into the state system. In the final chapter he asks readers who share his concerns to demand that the politicians alter course. The book will appeal to parents, education students and teachers as well as everyone interested in the future education of our children.
