- "Unstageable if covered by eschar"

**Reassessment testing** - inability to perceive a light touch/pressure indicates loss of protective sensation. Not able to perceive (light to moderate) - May lead to pressure ulcers

### WOUND HEALING

#### Primary intention

- Surgical incisions, lacerations, punctures, superficial and partial thickness wounds
- Minimal swelling and heal quickly in uncomplicated and orderly progression

#### Secondary intention

- Wounds left open to heal by scar formation which requires ongoing attention

**Reimagining Nigeria's Educational System** Joseph A. Balogun,2023-09-20 This book assesses the challenges within the Nigerian educational system and provides a concrete plan to revitalize the low performing system by strengthening high stakes testing at all levels In Nigeria many citizens believe that the solution to the country's low performance in education is to eliminate high stakes standardized testing High stakes testing refers to applying standardized student achievement tests as a primary mechanism to evaluate students teachers and their school's performance This book argues that the poor quality of education and low ranking of Nigeria's educational system is not related to the negative consequences of high stakes testing but rather is due to many intrinsic factors By conducting a comparative analysis of six high performing education systems worldwide the book offers a comparative summative evaluation of the educational system and offers recommendations This book will be of interest to policymakers and scholars in the fields of African education higher education quality and global studies African studies management and administration leadership and professional development studies Joseph Abiodun Balogun is former Dean and retired Distinguished University Professor at the College of Health Sciences Chicago State University USA Visiting Professor
