## Notes From Underground Canons:

**The Philosophy of Desire in the Buddhist Pali Canon** David Webster, 2005 David Webster explores the notion of desire as found in the Buddhist Pali Canon Beginning by addressing the idea of a paradox of desire whereby we must desire to end desire the varieties of desire that are articulated in the Pali texts are examined A range of views of desire as found in Western thought are presented as well as Hindu and Jain approaches An exploration of the concept of ditthi view or opinion is also provided exploring the way in which holding views can be seen as analogous to the process of desiring Other subjects investigated include the mind body relationship the range of Pali terms for desire and desire's positive spiritual value A comparative exploration of the various approaches completes the work *Herodotus. The text of canon Rawlinson's tr. with the notes abridged by A.J. Grant* Herodotus, 1897 *The Rock Canon* Carys Wyn Jones, 2017-07-05 Canons are central to our understanding of our culture and yet in the last thirty years there has been much conflict and uncertainty created by the idea of the canon In essence the canon comprises the works and artists that are widely accepted to be the greatest in their field Yet such an apparently simple construct embodies a complicated web of values and mechanisms Canons are also inherently elitist however Carys Wyn Jones here explores the emerging reflections of values terms and mechanisms from the canons of Western literature and classical music in the reception of rock music Jones examines the concept of the canon as theorized by scholars in the fields of literary criticism and musicology before moving on to search for these canonical facets in the reception of rock music as represented by ten albums Bob Dylan's Highway 61 Revisited The Beach Boys Pet Sounds The Beatles Revolver The Velvet Underground's The Velvet Underground Nico Van Morrison's Astral Weeks Marvin Gaye's What's Going On The Rolling Stones Exile on Main St Patti Smith's Horses The Sex Pistols Never Mind the Bollocks Here's the Sex Pistols and Nirvana's Nevermind Jones concludes that in the reception of rock music we are not only trying to organize the past but also mediate the present and any canon of rock music must now negotiate a far more pluralized culture and possibly accept a greater degree of change than has been evident in the canons of literature and classical music in the last two centuries **Notes and Queries**, 1887 **Notes and Queries: a Medium of Inter-communication for Literary Men, Artists, Antiquaries, Genealogists, Etc**, 1898 *The Canon's Ward* James Payn, 1884 *Text and Canon of the Hebrew Bible* Shemaryahu Talmon, 2010 Collection of essays published elsewhere previously from 1954 to 2002 **Boston Journal of Chemistry and Pharmacy**, 1893 Notes from Underground Fyodor Dostoyevsky, 2012 Celebrating some of the most original works in recent years The Canons are titles of enduring quality and importance that will challenge inspire and be enjoyed by readers in generations to come *Bulletin of Medieval Canon Law*, 1979 **Canon**, 1960 *Gauntlet*, 1992 **The Canon of Medicine (al-Qānūn Fī'l-ṭibb)** Avicenna, Laleh Bakhtiar, 1999 Vol 2 Published for the first time in English alphabetical order vol 2 of the 5 original volumes of Canon of Medicine Law of Natural Healing is an essential addition to the history of medicine as it holds a treasure of information on natural pharmaceuticals used for over 1000 years

Eugene Goodheart,1999 As we approach the end of a millennium the battle for the fate of literary scholarship has taken on near apocalyptic overtones with more than a few predictions of the imminent end of literary studies as we know it Taking aim at culture warriors on the left and the right Goodheart provides a succinct and timely assessment of the current state and future of literary studies in the United States In Goodheart s view the opposition between tradition the cause of the right and innovation the cause of the left is essentially false tradition is an interactive history between the given and the innovative not an inert set of values or a stable canon of approved texts Does Literary Studies Have a Future challenges the view that literary classics must be relevant to our immediate concerns rather than providing easy recognition of what we already know the classic startles the unfamiliar in us Goodheart pays particular attention to David Denby s recent experiment with the Great Books He also addresses the question of objectivity in humanistic study the vexed relations between sthetics and ideology Finally he dissects the academy s current love affair with popular culture None of the other writings on the culture wars has so successfully reconciled the traditions of sthetic and moral criticism and the new ideological and sociological ways of reading criticism     Saturday Review ,1891
