Flat-rate Tax United States. Congress. Senate. Committee on Finance, 1983

Topics in Public Economics David Pines, Efraim Sadka, Itzhak Zilcha, 1998 The evolving modern world is characterized by two opposing trends integration and segregation On the one hand we witness strong forces for segregation on the basis of nationality ethnicity religion and culture in the former Soviet Union the former Czechoslovakia the former Yugoslavia as well as in Northern Ireland Spain and Canada These forces are quite strong and in some cases violent On the other hand the European Union and NAFTA represent the tendency for integration motivated primarily by economic considerations such as gains from trade and scale economies In fact these opposing trends can be explained by the concepts developed in modern club theory local public finance and international trade

The Effects of Taxation on Multinational Corporations Martin Feldstein, James R. Hines, Jr., R. Glenn Hubbard, 2007-12-01 The tax rules of the United States and other countries have intended and unintended effects on the operations of multinational corporations influencing everything from the formation and allocation of capital to competitive strategies The growing importance of international business has led economists to reconsider whether current systems of taxing international income are viable in a world of significant capital market integration and global commercial competition In an attempt to quantify the effect of tax policy on international investment choices this volume presents in depth analyses of the interaction of international tax rules and the investment decisions of multinational enterprises Ten papers assess the role played by multinational firms and their investment in the U S economy and the design of international tax rules for multinational investment analyze channels through which international tax rules affect the costs of international business activities and examine ways in which international tax rules affect financing decisions of multinational firms As a group the papers demonstrate that international tax rules have significant effects on firms investment and other financing decisions

Political Economy Daniel Usher, 2008-04-15 This thought provoking introduction to economics exposes readers to the workings of the market in a democratic state The text explains basic economic concepts from a political perspective how the price mechanism substitutes for central authority in determining production and allocation of goods the use of demand and supply curves to trace the impacts of tariffs taxes subsidies quotas and patents and the redistribution of income Additionally the text explores political topics from an economic

perspective including the avoidance of anarchy and despotism and the mutual dependence of markets voting public administration and law Relies largely on stories and paradigms to convey important economic concepts Explains basic economic concepts from a political perspective and explores political topics from an economic perspective Covers topics such as the price mechanism demand and supply curves redistribution of income anarchy voting and public administration *Tax Topics* ,1954 *Tax Strategies for Corporate Acquisitions, Dispositions, Spin-offs, Joint Ventures and Other Strategic Alliances, Financings, Reorganizations and Restructurings* ,2005 **Congressional Record** United States. Alden's Living Topics Cyclopedia John B. Alden,1896 **Activities** ,1939 *The Optimal Tax Rate for Capital Income is Negative* Kenneth L. Judd,1997 We examine the problem of optimal taxation in a dynamic economy with imperfectly competitive markets We find that the optimal tax system will tend to provide subsidies for the purchase of capital goods to offset gaps between price and marginal cost The average tax on capital income will be negative even if pure profits are not taxed away and even if the alternative distortionary taxes have an infinite efficiency cost These arguments hold even if it is necessary to tax consumption goods which also sell above marginal cost the difference is that capital goods are intermediate goods and consumption goods are final goods Since observed markups are greater for equipment than for construction this analysis justifies the Investment Tax Credit s discrimination in favor of equipment over structures **Taxation of Business Entities** ,2007
