The advent of generative AI has introduced unprecedented opportunities and challenges for product marketers. With tools that can create compelling content, hyper personalized messaging and predictive insights at scale, generative AI has changed the rules of engagement. Yet alongside its promise comes a pressing need to navigate ethical considerations, trustworthiness and how to maintain the human touch in a world increasingly shaped by algorithms. *Product Marketing in the Age of Generative AI* is a guide for those at the forefront of this transformation. It's for product marketers who see generative AI not as a replacement for human ingenuity but as a powerful partner in driving creativity, efficiency and impact. This book is about mastering the tools and techniques that generative AI offers while staying rooted in the core principles of great product marketing: understanding your audience, crafting resonant messaging and driving tangible results. This is not a book about AI hype or abstract theory. Instead, it's a practical guide grounded in real world applications, case studies and actionable strategies. Along the way, we'll explore how to leverage AI responsibly, balancing automation with authenticity to build trust and lasting connections. The age of generative AI is not coming; it's here. And as product marketers, the question isn't whether to embrace it, but how to do so effectively and ethically. My hope is that this book equips you with the knowledge and confidence to navigate this new frontier, transforming challenges into opportunities and leveraging AI as a force multiplier for your marketing efforts. Whether you're an experienced marketer looking to stay ahead of the curve or someone new to the field eager to understand how generative AI can enhance your craft, this book is for you.
