Teaching English language arts at grades K-5 is both a science and an art. Educators must teach literacy skills and content with best practices while also keeping focus on each student's individual needs. They are challenged to monitor students working independently while also conducting small group instruction. And they must focus on providing differentiated support with a rather complicated text. With increased attention to rigor requirements and personalized instruction, it can be a challenge to make sure all students are receiving instruction that is just right. *Comprehensive Literacy Basics: An Anthology* by Capstone Professional contains useful tips to support educators. Chapters focus on each part of the literacy and language arts block, including whole group, small group, writing, and differentiation. A collection of expert authors specializing in literacy and language arts instruction contributed chapters to the book. The quick tips and suggestions within will reinforce current practices while providing an invaluable go-to reference. FAMIS 902792539     *Catalog of Copyright Entries. Third Series*

*Family Literacies* demonstrates through reference to empirical research how shared reading practices operate in a wide range of families with a view to supporting families in reading with their pre school children. At the heart of this book, written by two highly experienced experts in the field, is a fascinating project that captured diverse voices and experiences by parents, children and other family members. Rachael Levy and Mel Hall deploy a rich and distinctive theoretical framework drawing on insights from literacy studies, education and sociology. *Family Literacies* presents an account of shared reading practices in homes, focusing attention on what motivates parents to read with their children as well as revealing what parents may need if they are to begin and sustain shared reading activity. The authors show the many ways in which reading is centrally embedded in many aspects of family life, arguing that this has particular implications for children as they start school. Situated within a socio cultural discourse, this book explains why it is important to understand how and why shared reading takes place in homes so that all families can be supported in reading with their children. *Family Literacies* is essential reading for all those who are studying and researching literacy practices, especially those involving young children. The book will also be of value to students, practitioners and researchers in education and applied linguistics who are working with

families and have an interest in the study of family practices The authors findings have major implications for how parents can be encouraged to develop positive reading relationships with their children *Instructor and Teacher*,1982
