

## A Typical Year in the NFL

The National Football League, commonly known as the NFL, is the United States' top level American football competition. The league has thirty-two teams and its schedule includes games in 18 two-hour and seventy-two games into every regular season. Some of these matchups are now also played in other parts of the world, such as Mexico, the United Kingdom, Germany and South America. In order to keep the league running smoothly, games and events take place throughout the year.

Every year, a total power outage in September and about the 100 century.

Planning for this year's month-long celebration is well under way. The program is being coordinated by the school's students as early as the spring to help with all the details, from the food to the decorations.

100

Thousands of computers are used to create different weather predictions before one is picked that works the best.

Throughout the regular season, with time not being unlimited, most of these take place on Tuesday afternoons. Every 90, you will have one "bye week" (when they don't play a game) included in their schedule so players can rest and coaches can receive tuition.

100

In January, the regular season reaches its end and is followed by the playoffs, when the best teams take part in playoff and championship games. However, the league's highlight and its final game is Super Bowl, which usually takes place in February.
