Reauthorization of the Higher Education Act: Guaranteed student loans United States. Congress. House. Committee on Education and Labor. Subcommittee on Postsecondary Education, 1986      House of Commons - Committee of Public Accounts: Student Loan Repayments - HC 886 Great Britain: Parliament: House of Commons: Committee of Public Accounts, 2014-02-14 There is at present around 46 billion of outstanding student loans on the Government's books and this figure is set to rise dramatically to 200 billion by 2042 in 2013 prices By 2042 there will be an estimated 6.5 million borrowers of student loans At the same time estimates for the amount of loans that will not be repaid are also rising and the Government assumes that 35-40% of outstanding loans will never be repaid That is some 16 billion to 18 billion on the current debt of 46 billion and 70 billion to 80 billion on the estimated value of student loans by 2042 The Department for Business Innovation Skills the Department is not doing enough to secure value for money from its collection arrangements The Department is unable to accurately forecast student loan repayments and does not have a sufficient understanding of the likely future cost of non repayment to the taxpayer The Student Loans Company is not doing enough to ensure that it identifies and collects all the repayments due given the substantial size of the financial assets involved and will need to demonstrate value for money from the proposed sale of the student loans book      **Student Loan Repayment Guide**, 2006

**National Audit Office - Department for Business, Innovation and Skills: Student Loan Repayments - HC 818** Great Britain: National Audit Office, 2013-11-28 Until the Department for Business Innovation and Skills BIS has a robust strategy for maximizing the collection performance of student loans and improves its information on borrowers it will not be well placed to secure value for money BIS forecasts that the total value of outstanding student loans will increase from 46 billion in 2013 to approximately 200 billion by 2042 in 2013 prices The number of borrowers due to repay is projected to increase from 3 million in 2012-13 to 6.5 million by 2042 The loan book is therefore becoming a substantial public asset BIS and its collection partners HM Revenue Customs and the Student Loans Company SLC work together in a joined up way In 2012-13 they collected 1.4 billion in student loan repayments at a cost of 27m BIS needs to make better use of data to support its collection strategy and improve its understanding of where it could invest to maximise the collection value of the loan book In designing how student loans would work BIS anticipated that a proportion of the loans would not be repaid However BIS has not set an annual target for the amount to be collected because repayments are affected by graduate earnings and economic factors outside its direct control Annual repayment forecasts are consistently higher than amounts collected While many borrowers may not be in employment BIS and the SLC have carried out little analysis to establish how many may be working overseas or the level of repayments that may be missed      **Student Loan Repayment Guide** Colorado Guaranteed Student Loan Program, 1989      **Student Loan Repayment Guide** Colorado Student Loan Program, 2001      *Federal Direct Student Loans* United States.
