Dance in US Popular Culture Jennifer Atkins, 2023-07-21 This innovative textbook applies basic dance history and theory to contemporary popular culture examples in order to examine our own ways of moving in and through culture. By drawing on material relevant to students, *Dance in US Popular Culture* successfully introduces students to critical thinking around the most personal of terrain: our bodies and our identities. The book asks readers to think about what embodied knowledge we carry with us and how we can understand history and society through that lens. What stereotypes and accompanying expectations are embedded in performance related to gender and/or race? For instance, how such expectations are reinforced, negotiated, challenged, embraced, or rescripted by performers and audiences? How readers articulate their own sense of complex identity within the constantly shifting landscape of popular culture? How this shapes an active sense of their everyday lives and how this can act as a springboard towards dismantling systems of oppression? Through readings, questions, movement analyses and assignment prompts that take students from computer to nightclub and beyond, *Dance in US Popular Culture* readers develop their own cultural sense of dance and the moving body's sociopolitical importance while also determining how dance is fundamentally applicable to their own identity. This is the ideal textbook for high school and undergraduate students of dance and dance studies in BA and BFA courses as well as those studying popular culture from interdisciplinary perspectives including cultural studies, media studies, communication studies, theater and performance studies. Chapter 11 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution CC BY 4.0 license.

Thomas,2009-07-23 Advice and practical ideas for creating collecting and preserving digitized and born digital materials for optimal long term access and user engagement *The Hidden Psychology of Social Networks: How Brands Create*

Authentic Engagement by Understanding What Motivates Us Joe Federer, 2020-09-15 From the former Head of Brand Strategy at Reddit comes a proven and thought provoking approach to the digital economy and how brands can create authentic engagement that is rooted in the fundamental motivations behind human psychology. Leading marketing practitioner and thought leader Joe Federer draws on evolutionary biology, anthropology, neuroanatomy and psychology as well as more than a decade of hands on experience to explain why people act so differently in various online spaces and what they are seeking from participating in each one. With a framework based on Freud's Id, Ego and Superego model of the human psyche, he demonstrates how the internet is a digital reflection of the collective human psyche and how different social networks correspond to different mindsets. Platforms like Reddit to the unfiltered Id, Facebook and Twitter to the managed Ego and Instagram to the ideal Superego. In the same way you behave differently when you're home alone, out with friends, communicating with family or interacting with coworkers, people act and express themselves differently in these various online spaces. Context matters. Understanding this will enable you to develop and execute effective engagement strategies to reach your target audiences on each social network. Learn how to create content that drives sharing and word of mouth, how brands can fit natively into different types of social channels, how to balance branded social presences across different networks, why authenticity will only grow in importance to consumers. Fascinating and deeply compelling, *The Hidden Psychology of Social Networks* will equip you to make vastly more efficient use of your media buys, establish more thoughtful strategies, develop better creative and, in the end, deliver more effective marketing that provides value.

Ben McConnell, Jackie Huba, 2007 A solid, insightful explanation of how the Internet has armed the consumer, which is to say everyone, against the mindless blather of corporate messaging attempts. Drop everything and read this book. The Wall Street Journal. The woman next to you in the coffee shop, typing madly on her laptop, just might be determining the ending to next year's block buster film, or how quickly the hottest new PDAT hits store shelves. In homes, dorm rooms, waiting rooms, planes and trains around the world, millions of people are exercising enormous influence on what we buy, even though they have no official connection to those products and services. Who are they? What motivates them? Marketing experts Ben McConnell and Jackie Huba explore the ramifications of social media in *Citizen Marketers*. As everyday people increasingly create content on behalf of companies, brands or products, they are collaborating with others just like themselves and forming ever growing communities of enthusiasts and evangelists. From the rough to the sophisticated, the user generated media of blogs, online bulletin boards, podcasts, photos, songs and animations are influencing companies, customer relationships, product design and marketing campaigns, whether they participate willingly or not. *Citizen Marketers* is the first book to document this phenomenon, examining some of the early winners and losers in this new genre, as well as some of its most noted constituents. With their exceptional knowledge of brands, products, companies and industries, the citizen marketers are democratizing
