*Handbook of Innovative Career Counselling* Jacobus G. Maree,2019-07-20 This book examines a topic widely regarded as

the most pressing in career counselling today is how to ensure that everyone receives career counselling and that all workers have the opportunity to engage in sustainable decent work. The author holds that career counselling should not only advance workers' self and career construction helping them design successful career lives and make social contributions and live purposeful lives, it should also expound new theoretical approaches and interventions. Furthermore, the book criticizes global society for overlooking the basic needs of many workers especially the most vulnerable and disadvantaged. An important feature of the book is its emphasis on promoting a creative and innovative approach to career counselling so as to better answer contemporary career related questions. It offers guidance on how to advance entrepreneurship and help workers develop critical thinking, curiosity, creativity, collaboration and communication skills. In this way the book promotes innovation in career counselling and maps the way forward in a theoretical and practical manner that helps clients flourish rather than merely survive in turbulent times impacted by the fourth wave in psychology career counselling, the economy as well as the 4th industrial revolution.
