Culture, International Transactions and the Anthropocene Lourdes Arizpe Schlosser, 2018-07-19 This book analyses how global transactions have been progressively conducted and negotiated in the last 25 years Achieving a new understanding of sustainability transition in the Anthropocene requires a deeper analysis on culture The development of new positions of international institutions national governments scientific organizations private fora and civil society movements on culture and nature shows how global transactions must take place in a rapidly transforming world In her book the author provides a multi situated ethnography of live debates on culture global environmental change development and diversity directly recorded by the author as a participating and decision making anthropologist from 1988 to 2016 She examines the politicization and internationalization of culture by recognizing negotiating and diversifying views on cultures and re thinking culture in the Anthropocene The merging of science and policy in taking up cultural and natural challenges in the Anthropocene is discussed *The Selfish Meme* Kate Distin, 2005 This book presents for the first time a fully developed and workable concept of cultural DNA **Critical Internet Literacies** Jamie Cohen, 2024-12-30 An introductory critical internet studies text that builds upon media literacy and digital culture theory to offer a thorough examination of the intersection of online technology and culture We are now collectively at a hinge point in the evolution of the web where online influencers can sway national discourse geopolitical events are remixed through memes and online harms are misunderstood This book argues that people are generally aware that online media has repercussions in off platform spaces but sometimes lack the language to properly critique online trends memes and internet born media How are citizens activists and marginalized groups able to use these tools effectively and safely in these times Jamie Cohen explores aspects of internet culture in an approachable manner building upon critical media literacy and applying a critical technocultural analysis as a methodology to reimagine how media literacy can operate in an online media environment The book explores key topics such as accessibility the creator economy content moderation tech bias platform capitalism internet culture and safety Offering a new way of reading internet media and critiquing content and creators this book is essential reading for students and scholars of digital culture internet culture media literacy social media and beyond **Art, Technology, Consciousness** Roy Ascott, 2000 This volume documents the very latest work from those connected with the internationally acclaimed CaiiA STAR centre Their artistic and theoretical research in new media and art includes aspects of artificial life robotics technoetics performance computer music intelligent architecture telematic art and biotechnology This book will also provide new ideas for software designers working on material to be used by the arts community Back cover [Lombardi Dies, Orr Flies, Marshall Cries](#) Brad Schultz, 2015-11-05 The year 1970 was grim in the United States and worldwide Vietnam continuing civil and political divisions a fear of growing lawlessness all seemed to point to a bleak future The 70s were also a time when traditional boundaries were being challenged from the color of skin to the length of hair Sports events issues and athletes

from the very first year of this tumultuous decade reflect the dramatic changes that were taking place around the country. Nowhere was this more evident than in college football where the University of Texas became the last all white national champion in 1970 even as a freshman still ineligible to play was standing by to bring about integration. In Lombardi Dies Orr Flies Marshall Cries The Sports Legacy of 1970 Brad Schultz covers the most significant and momentous sports stories from this single year in American history reflecting on the deeper impact of these events both on the sporting world and on society as a whole. Integration, homosexuality, drugs, lawsuits and tragedy all crossed the sporting landscape in 1970 including pivotal moments such as student athlete protests against racism in college football, the debut of Monday Night Football, a challenge to baseball's reserve clause and the plane crash carrying Marshall University's football team that killed everyone on board. Schultz tells these stories and more thoughtfully placing them within the context of the political, social and cultural events taking place across the country and around the world. Many of the athletes from 1970 may no longer be with us, their records may have been broken and younger athletes may have taken their place, but forty five years later it is time to look back and reflect on the significance of the events that took place in this unforgettable sports year. Chronicling a remarkable time in the history of American sports, this book will interest historians, sports fans and those wanting to learn more about the impact of sports on culture and society.

Thinking Through Memes Mike Cundall, Liz Sills, 2026-02-11 Thinking Through Memes is an introductory interdisciplinary project that brings together authors from a wide variety of disciplines to discuss and explore issues surrounding the popular culture phenomenon known as memes. This anthology looks at the cultural, ethical, philosophical and societal influence that memes have. Questions as to the nature of memes as art, the rhetorical influence of memes, how memes operate at a psychological and cultural level and why memes are important across a variety of areas in our lives are discussed in various ways throughout the chapters. Attention has been paid by the authors to avoid jargon and make their text as accessible as possible, encouraging readers to explore and think further on the issues. The text includes vocabulary terms and learning objectives for easy navigation.

The Meme as the Message Joanna Nowotny, Julian Reidy, 2025-10-31 This book sheds light on the phenomenon of memes, covering everything from pandemic humour to far right propaganda, from feminist memes to algorithmic censorship. Memes are far more than light entertainment; they are complex cultural artefacts that play a role in politics, in art and in platform economics. Taking a cultural studies perspective

the authors analyse individual memes in entertaining case studies systematising their findings in order to redefine this digital form of communication Chapters connect memes with other digital phenomena such as trolling and combine extensive close readings of exemplary individual memes with regards to form and aesthetics with an acute awareness of power dynamics and other context phenomena surrounding memes The book develops an innovative theoretical approach that presents the term memesis to capture the very specific quality of meme production and reception as a form of collective creative rewriting of a template in accordance with algorithmic logic Offering an important contribution not only to the still young field of meme studies but also to the general negotiations of questions around digital literacy this book will interest not only scholars and students of digital media visual communication cultural studies and media and politics but anyone with a keen interest in digital culture and how it shapes our lives *New Scientist* ,1999 *Gretchen Hupfel: Time Spent* Gretchen Hupfel,2005
