**Motocross and Off-Road Motorcycle Setup Guide** Mark Thompson, [Making It in America](#) Rachel Slade, 2025-06-10 A moving and eye opening look at the story of manufacturing in America whether it can ever successfully return to our shores and why our nation depends on it told through the experience of one young couple in Maine as they attempt to rebuild a lost industry ethically From the best selling author of Into the Raging Sea Ben Waxman spent a decade organizing workers in Pennsylvania Ohio and Wisconsin fighting for men and women at a time when national support for unions had sunk to an all time low Frustrated with the state of the world he lands back in his hometown of Portland Maine to rethink his life There he meets Whitney Reynolds a restless bartender eager for a challenge In each other they see a better future a version of the American dream they can build together Ben and Whitney set out to prove that union made all American sourced apparel manufacturing is possible in the twenty first century Their quest takes us across the nation and across time from the cotton fields of Mississippi to the hollowed out garment district in New York City to a family owned zipper company in Los Angeles to the enormous knit and dye houses in North Carolina While battling anti immigrant hostility trade wars and a global pandemic they grapple with the true meaning of made in USA in our globalized world Making It in America offers a fascinating new take on free trade economics and manufacturing history Woven through the Waxmans journey is the essential story of textiles and their critical role in shaping capitalism It was the demand for cheap cloth that sparked the Industrial Revolution It was the brutal conditions in New England s textile mills that first drove workers to organize Making It in America is a deeply personal account of how individual choices shape a nation Each touchpoint casts a rare compassionate look at what came before where we are now and where we re going through the people places and ecologies that produce the fabric of our lives
