Mexico Between Hitler And Roosevelt:

Mexico Between Hitler and Roosevelt Friedrich Engelbert Schuler, 1998 Mexico's relationship with the world during the 1930s is revealed as a fascinating series of calculated responses to domestic political changes and international economic shifts

The Agrarian Dispute John Dwyer, 2008-09-12 Focuses on US Mexican relations in postrevolutionary Mexico placing Cardenas's agrarian reform including the nationalization of American owned Mexican farmland in an international context

Uprooting Community Selfa A. Chew, 2015-10-22 Joining the US war effort in 1942 Mexican President Manuel

vila Camacho ordered the dislocation of Japanese Mexican communities and approved the creation of internment camps and zones of confinement Under this relocation program a new pro American nationalism developed in Mexico that scripted

Japanese Mexicans as an internal racial enemy In spite of the broad resistance presented by the communities wherein they were valued members Japanese Mexicans lost their freedom property and lives In *Uprooting Community* Selfa A Chew

examines the lived experience of Japanese Mexicans in the US Mexico borderlands during World War II Studying the collaboration of Latin American nation states with the US government Chew illuminates the efforts to detain deport and confine Japanese residents and Japanese descent citizens of Latin American countries during World War II These narratives

challenge the notion that Japanese Mexicans enjoyed the protection of the Mexican government during the war and refute the mistaken idea that Japanese immigrants and their descendants were not subjected to internment in Mexico during this period Through her research Chew provides evidence that despite the principles of racial democracy espoused by the Mexican elite Japanese Mexicans were in fact victims of racial prejudice bolstered by the political alliances between the

United States and Mexico The treatment of the ethnic Japanese in Mexico was even harsher than what Japanese immigrants and their children in the United States endured during the war according to Chew She argues that the number of persons affected during World War II extended beyond the first generation Japanese immigrants handled by the Mexican government during this period noting instead that the entire multiethnic social fabric of the borderlands was reconfigured by the absence of Japanese Mexicans

The Second Century Mark T. Gilderhus, 2000 The Second Century US Latin American Relations since 1889 focuses on US relations with Latin America during the second century a period bounded by the advent of the

New Diplomacy late in the nineteenth century and the end of the Cold War about one hundred years later This text provides a balanced perspective as it presents both the United States's view that the Western Hemisphere needed to unite under a

common democratic capitalistic society and the Latin American countries response to US attempts to impose these goals on their southern neighbors This book examines the reciprocal interactions between the two regions each with distinctive

purposes outlooks interests and cultures It also places US Latin American relations within the larger context of global politics and economics The Second Century is an excellent text for courses in Latin American history and diplomatic history
