Mexico's Security Failure Collapse Into Criminal Violence:

Mexico's Security Failure Paul Kenny, Monica Serrano, Arturo C. Sotomayor, 2013-06-17 Mexico has failed to achieve internal security and poses a serious threat to its neighbors This volume takes us inside the Mexican state to explain the failure there but also reaches out to assess the impact of Mexico's security failure beyond its borders The key innovative idea of the book security failure brings these perspectives together on an intermestic level of analysis It is a view that runs counter to the standard emphasis on the external trans national nature of criminal threats to a largely inert state Mexico's Security Failure is both timely with Mexico much in the news but also of lasting value It explains Mexican insecurity in a full dimensional manner that hasn't been attempted before Mexico received much scholarly attention a decade ago with the onset of democratization Since then the leading topic has become immigration However the security environment compelling many Mexicans to leave has been dramatically understudied This tightly organized volume begins to correct that gap

Histories of Drug Trafficking in Twentieth-Century Mexico Wil G. Pansters, Benjamin T. Smith, 2024-11-15 This work brings together a new generation of drug historians and new historical sources to uncover the history of the drug trade and its regulations While the US and Mexican governments developed anti drug discourses and policies which criminalized both high profile traffickers and small time addicts these authorities also employed the criminals and cash connected to the drug trade to pursue more pressing political concerns The politics socioeconomic relations and criminal justice system of modern Mexico have been shaped by these public and covert policies as well as by subnational histories of drug production and trafficking The essays in this study explore this complicated narrative and provide insight into Mexico's history and the wider contemporary global drug trade

Mexican Security Failure Paul Kenny, Monica Serrano, Arturo C. C. Sotomayor, Beyond the Drug War in Mexico Wil G. Pansters, Benjamin T. Smith, Peter Watt, 2017-10-30 This volume aims to go beyond the study of developments within Mexico's criminal world and their relationship with the state and law enforcement It focuses instead on the nature and consequences of what we call the totalization of the drug war and its projection on other domains which are key to understanding the nature of Mexican democracy The volume brings together chapters written by distinguished scholars from Mexico and elsewhere who deal with three major questions what are the main features of and forces behind the persistent militarization of the drug war in Mexico and what are the main consequences for human rights and the rule of law what are the consequences of these developments on the public sphere and more specifically on the functioning of the press and freedom of expression and how do ordinary people engage with the effects of violence and insecurity within their communities and which initiatives and practices of justice from below do they develop to counter an increased sense of vulnerability suffering and impunity

Organized Crime, Drug Trafficking, and Violence in Mexico Jonathan D. Rosen, Roberto Zepeda, 2016-07-19 Organized Crime Drug Trafficking and Violence in Mexico The Transition from Felipe Calderón to Enrique Peña Nieto examines the major trends in organized crime and drug trafficking in Mexico The

book provides an exhaustive analysis of drug related violence in the country This work highlights the transition from the Felipe Calder n administration to the Enrique Pe a Nieto government focusing on differences and continuities in counternarcotics policies as well as other trends such as violence and drug trafficking **Mexican Drug Violence** Teun Voeten,2020-11-29 Brutally honest a deeply extraordinary and original work SEBASTIAN JUNGER With an estimated 250 000 people killed in 15 years the Mexican drug war is the most violent conflict in the Western world It shows no sign of abating In this book Dr Teun A Voeten analyzes the dynamics of the violence He argues it is a new type of war called hybrid warfare multidimensional elusive and unpredictable fought at different levels with different intensities with multiple goals The war ISIS has declared against the West is another example of hybrid warfare Voeten interprets drug cartels as ultra capitalist predatory corporations thriving in a neoliberal globalized economy They use similar branding and marketing strategies as legitimate business He also looks at the anthropological individual level and explains how people can become killers Voeten compares Mexican sicarios West African child soldiers and Western jihadis and sees the same logic of cruelty that facilitates perpetrating inhumane acts that are in fact very human *North American Integration* Gaspare M. Genna,David A. Mayer-Foulkes,2013-07-18 The course of events since the implementation of NAFTA has had unexpected elements with significant impacts on North American integration First has been the rise of China as a larger source of imports and production partner than Mexico Second has been the rise of security concerns since September 11 2001 The result has been much stronger integration between Canada and the US than with Mexico Migration issues are now linked with security which has risen to a top priority in the international agenda While liberalization has furnished strong economic incentives for integration it has not provided a sufficient guide for the political process which requires leadership and appropriate institutions to coordinate and regulate the special interest groups A coherent and effective North American integration would be a valuable asset in the context of global integration and competition yet the issues involved are quite complex and varied *North American Integration An Institutional Void in Migration Security and Development* examines the current state of North American integration Editors Gaspare M Genna and David A Mayer Foulkes gather an international group of experts to give a broad coherent picture of the current multifaceted process of integration and find that institutional development is an essential component Divided into three sections the book Discuss the determinants of integration and shows that the institutional characteristics of the three countries including democracy and basic rights are the most important Provides examples of institutional building in contexts for which institutions are lacking specifically labor migration and health issues Examines issues such as overall security arrangements trade drug related violence energy and the continuing wage gap among the countries which have an important bearing on integration Rethinking Neo-Institutional Statebuilding Peter Finkenbusch,2017-05-18 This book examines how neo institutional statebuilding undercuts international policy agency Post Cold War interventions are marked by a peculiar paradox From peace and

statebuilding projects in war shattered societies to World Bank development programmes in Africa the scope of external regulation has grown consistently while international policymakers are finding it increasingly difficult to formulate a political project regarding the Global South This book seeks to make sense of a contradictory situation in which international policymakers are doing more statebuilding than ever while knowing less about it The study argues that the crisis of international agency is driven by the demise of reductionist liberal universal knowledge It critically explores neo institutionalism as a dominant policy framework bringing out how the failure of intervention paves the way for more comprehensive context sensitive and bottom up engagement As a precondition and side effect of this expansive process reductionist liberal universal knowledge is deconstructed Paradoxically the more policymakers learn within a neo institutional frame of reference the less they positively know Without this epistemic foundation it becomes difficult to act purposively in the world and formulate instrumental policy The study illustrates these conceptual insights with reference to the Merida Initiative a U S Mexican security agreement signed in 2007 Rethinking Neo Institutional Statebuilding will be of much interest to students of statebuilding international intervention peace and conflict studies Latin American politics and IR in general *Narcoterrorism and Impunity in the Americas* Robert J. Bunker, John P. Sullivan, 2016-10-06 The fifth Small Wars Journal El Centro anthology spans online journal and blog writings for all of 2015 with a thematic focus on narcoterrorism and impunity in the Americas This anthology is composed of an About SWJ and Foundation section a memoriam to our friend and colleague George W Grayson an acronym listing a foreword an introduction twenty eight chapters a postscript anthology notes and notes on its twenty three academic governmental and professional contributors
