change during the course of their therapy work are often those who can contact and stay with a felt sense but how to help them do so is not obvious Ann Weiser Cornell who has been teaching Focusing to clinicians for more than 30 years shows how to help clients get felt senses and nurture them when they appear how to work with clients who have difficulty feeling in the body how to facilitate a felt shift how to support clients who experience dysregulating emotional states and much more Beginning with a clear explanation of what makes Focusing so potentially transformative she goes on to show how to effectively incorporate Focusing with other treatment modalities and use it to treat a range of client issues notably trauma addiction and depression Designed to be immediately applicable for working clinicians and filled with practical strategies clinical examples and vignettes this book shows step by step how to bring Focusing into any kind of clinical practice Cornell expertly demonstrates the Focusing process unfolding moment by moment in the therapy room and illuminates its powerful capacity to support a client's growth and change
